WAYTE RAYMOND
THE MAN & THE ERA

It has been a great pleasure for NASCA to be able to prepare this offering from the holdings of the legendary Wayte Raymond. In discussing, "The Man" with many of the people who knew him, and searching for a proper introduction to this sale, we felt nothing would be more suitable than to reprint an article written by John J. Ford, Jr. in the February 1957 Numismatist - shortly after Mr. Raymond's passing. It is with deep appreciation to John Ford and the American Numismatic Association that we reprint Mr. Ford's article from which we have borrowed our title.

"WAYTE RAYMOND - THE MAN & THE ERA"

WAYTE RAYMOND, internationally renowned numismatic scholar, dealer and publisher, passed away quietly on Sunday, Sept. 23, 1956, in New York City's Roosevelt Hospital. His death culminated a struggle that had begun almost a year earlier. In the fall of 1955, he underwent serious abdominal surgery, and was hospitalized until late winter. During April and May of 1956, his many friends were convinced that recovery was complete, and in June he left for his summer home in Montauk, at the east end of Long Island. However, almost immediately thereafter complications arose, and during the summer months he became steadily worse. His strong heart, which had survived an almost critical illness eight years before, began to fail. In July, WR lost his voice, and was thus incapacitated until his death.

Seventy years, while generally considered a generous life span, is, in retrospect, but a short period of time upon this earth for a man with a purpose. Wayte Raymond's entire life was truly dedicated to numismatics. He bore the title "Numismatist" with honor, having earned it through countless endeavors for over half a century. The achievements of no other man, however interested in our scientific hobby, can yet parallel the career of this dean of American numismatists.

Wayte Raymond was born Nov. 9, 1886 in South Norwalk, Conn., of native New England stock. His forebears included the Prescotts of American Revolutionary fame. While a very young man he chose a banking career, and as a teller in the City National Bank of South Norwalk became interested in coins. Old and unfamiliar money regularly appeared upon bank counters shortly after the turn of the century, and WR, like many a Yankee before him, soon started to collect. On June 1, 1902, he joined the A.N.A. at the age of 16, receiving Membership No. 396. A born trader, Mr. Raymond, like so many of us, started to deal on a part time basis in an effort to enhance his collection. Finally, his numismatic interest became overpowering. With $500 borrowed from his father, a manufacturer of fine bristle brushes, Wayte Raymond came to New York City as a full time dealer. In 1912, after an unsuccessful attempt at forming a partnership to have included the equally young and exuberant B. Max Mehl, WR went it alone. He founded the United States Coin Co. with offices at 200 Fifth Ave.

Almost from the start, Wayte Raymond was progressively successful. He built his business carefully, utilizing his modest capital many times over. Feeling his way cautiously, he applied both the fixed price list and the auction sale catalog to his trade. Unlike almost all of his competitors of the period, he shied away from a "junk shop" atmosphere, refusing to handle the then popular antiquities and curiosities including autographs, Indian relics, old newspapers and stamps. Wayte Raymond, more so than any other American professional, initially attempted to deal only in fine material, the numismatic "classics" of every period, from every country.

During the early years, WR held several famous public auction sales. The first was that of the Malcolm N. Jackson collection, sold on May 20-22, 1913. Two years later, almost to the day, he offered another top-grade plate catalog, selling the famous Granberg-Woodin collection as that of "A Prominent American." This last sale featured a great many important U.S. rarities, among them the fabulous 1873 "CC" dime without arrows in mint state, purchased on the floor by dealer Rud Kohler. Now in the Eliasberg collection, this coin is the rarest regularly issued American silver piece. Also during this period, the United States Coin Co. offered William Earl Hidden's Canadian coins, the Foster Lardner and George M. Andrus collections, Dr. George French's hard times tokens and several other important consignments.

Following his interest in coin sales, Wayte Raymond turned to softer selling, directing his talents towards individual quotations and the development of a select clientele. In March, 1923, he handled the purchase and sale of the Col. James W. Ellsworth collection, a $100,000 transaction. This 2,000 piece collection contained two 1804 dollars and was the largest numismatic deal of its kind up to that time. His customers in the twenties included W. C. Atwater, Virgil Brand, John W. Garrett

and Waldo C. Newcomer, among the most prolific numismatic acquisitors of the decade. In short order, Mr. Raymond cultivated Col. E. H. R. Green, the millionaire eccentric son of Hetty Green, who rapidly became not only a close friend but his most important client. This friendly business relationship continued until the Colonel's death in 1936. Wayte Raymond combed the American and foreign markets for Col. Green, spending many hundreds of thousands of dollars on order, and buying entire collections to obtain a few choice specimens. During the late twenties, he traveled to Europe extensively, sometimes crossing the Atlantic twice in one year.

Uptown customers demanded an uptown address, and for a long time WR had his offices with the old Anderson (later Parke-Bernet) Galleries at 489 Park Ave. It was from here that he cataloged and sold the largest accumulation of rare Canadian coins ever brought together by a single individual, the property of W. W. C. Wilson of Montreal. This fantastic collection, also rich in Early American, Indian Peace and Canadian medals, was offered and sold in four separate sales, in 1925, 1926, 1927 and 1928. Modern numismatists interested in Canadian coins would be thrilled to own one authentic proof; many collectors and dealers have never seen an early British North American coin in that preservation. Wilson had 146 proofs, not including strict patterns. Like many a professional who started as and remained a collector, Wayte Raymond had his favorite series. One of them was Amrican colonial and Indian Peace medals, the former of great interest to Henry Chapman and even the author. In addition to the first (1925) Wilson sale, perhaps the greatest offering of this material handled by WR was the collection of Charles P. Senter of St. Louis. This little known public auction took place in 1933, at the depth of the depression.

It was during the early thirties that Wayte Raymond made one of the greatest decisions of his long career, assuming responsibility for the operation of the Scott Stamp & Coin Co.'s numismatic department. Affiliated with Scott's, and also on the third floor at 1 West 47th St., were the J.C. Morgenthau Galleries. Long an advocate of the public coin sale, Raymond made an agreement with dealer Jim MacAllister of Philadelphia to hold numismatic auctions on the Morgenthau premises. MacAllister cataloged the consignments, while WR did the missionary work for the coins, had the catalogs printed and made all the necessary arrangements. Old timers, and some of us who are not so old, will long remember the fruits of this partnership. The Raymond-MacAllister "Morgenthau sales" featured choice U.S. coins from old collections during the entire 13 years of their existence. They were climaxed by the sale of the Howard R. Newcomb collection in 1945, one of the most important cent offerings. In 1936, some time after his affiliation with the Scott firm, WR opened personal offices in Rockefeller Center, where he remained until late in the war years. His last New York office was located at 654 Madison Ave., which he vacated early in 1956. About 11 years ago, upon the return of Comdr. Charles M. Wormser from duty with the navy, Mr. Raymond turned over the Scott Coin Dept. to the management of the New Netherlands Coin Co.

While many successful professionals in the rare coin business have made outstanding contributions to the hobby, no one man did more for American numismatics as a whole than did Wayte Raymond. It was WR, who in 1930 obtained the Beistle patents and created the famous National Coin album line. The actual promotion of these highgrade "penny boards" made date and proof collecting what it is today in this country. He not only pioneered the coin album, but at one time or another tried hard to create interest in various other containers, including coin holders, blocks and trays, and even small portable cabinets. However, the attainment that removed Wayte Raymond from both his predecessors and contemporaries, the efforts that could be called truly great, were his many publishing ventures.

Wayte Raymond started with a modest house organ in September, 1914, called the "United States Coin Co. Bulletin." From the beginning, he tried to educate collectors as he promoted numismatics. His first bulletin reprinted part of the scarce Haseltine type table, utilizing seven pages of space, while only a half page was spent advertising the coins referred to. As the years rolled by, WR published a *Coin & Medal Bulletin* (1916-1933), *The Coin Collector Series*, a new version of the old *Scott's Coin Collectors Journal* (1934-1954), and numerous other individual and related items. From 1931 to 1933, he formulated the book that was destined to become the bible of the trade in American coins and paper money, his *Standard Catalogue*. In 1934 this title appeared in sections and featured prices of individual coins; a year later it was published as a single volume, in the format familiar for 20 years. In 1938, Raymond put together the first volume of *Coins of the World*, a standard text of twentieth century foreign issues. This work was soon followed by a similar book on nineteenth century coins. His United States catalog, the standard paper money book and pamphlets, and even his *Coins of the World* have found imitators, and occasionally detractors, but they were the first in their fields, and it was the Raymond publications that gave the boost so desperately needed to numismatic interest in the United States.

Some of the Raymond books made money, several sold coins for him and others. Even so, a large number of his ventures were inspired missionary work, ideas and achievements that he could not hope to profit by in his lifetime. Highly representative of these were the booklets published during the past few years, each featuring scientific articles on American numismatics by such authors as Breen, Kenney, Lloyd and Newman. Few people know that Wayte Raymond sent Walter Breen, the most competent numismatic researcher in the United States, on trips to the National Archives, paid Breen a salary, paid his expenses, and published the splendid results of this work, paying Breen an author's fee for his completed manuscripts. Fewer yet understand that WR did not even realize the cost of composition for almost all of this work, much less the other expenses including all of the initial preparation and remaining printing costs.

To many, Wayte Raymond the man presented somewhat of an enigma. They did not really know him. Often called a shrewd Yankee trader, he still managed to be scrupulously fair with those he dealt with on his level. Sometimes too firm, occasionally stubbornly hard, he repeatedly insisted that the other fellow was always entitled to his share. While WR could be, and often was, extraordinarily gregarious with small groups of intimate friends, he strove hard to remain aloof from the herd of common collectors. A charter member of the somewhat exclusive New York Numismatic Club since 1908, he attended few meetings in the early days, none for the better part of his life. Always he did business by appointment, carefully choosing those he wanted to talk to and see. Perhaps part of this selectiveness was caused by the

painful migraine headaches he often experienced. A portly man on the tall side Raymond lived well. He was a generous host, a lover of fine food and liquor, beautiful books, *objects d'art* and luxurious surroundings. Sure of himself and his purpose, he was nevertheless, at times, painfully shy. Not vain, he kept from almost all his membership in New York's important Kane Masonic Lodge, often called the "Explorer's Lodge," the fact that he was a Son of the Revolution, one of the first Americans selected to be a Fellow of the Royal Society, a Fellow of the American Numismatic Society (1917), a Benefactor of the ANS (1950).

Wayte Raymond was a crusader in his own right. Highly disdainful of the baser aspects of the hobby, he quietly rebelled against cheap and misleading premium books when they were the rage, roll collectors and misinformed numismatic speculators in recent years. He put back a considerable amount of the money he took from coins, in an attempt to inform the average collector of what he knew to be fine and good. Like most self-educated men, he was always willing to learn. Never a student in the technical sense of the word, he amassed a gargantuan reservoir of knowledge concerning coins of all periods and countries. In this respect, he was on a par with the Chapman brothers and his close friend B. G. Johnson of the St. Louis Stamp & Coin Co. Conservative in both his personal and business thinking, Raymond indulged his great knowledge and experience carefully. The valuations in his catalogs reflected this conservatism, at times to an undesirable degree. He handled numerous large collections and many thousands of fine coins during his long appearance upon the American numismatic stage. Within recent memory, the Elliott Smith, Hillyer Ryder and J. P. Morgan collections come quickly to mind, but there were countless others.

Serious and secretly sensitive, at times overconscientious, the real Wayte Raymond was known to all too few. His enormous capacity for giving to those he believed deserving, the deep rooted generosity and unselfishness of the man, will never be fully known. His vivacious wife Olga, who survives him, recently reflected that "in the 40 years I lived with him, he never said a bitter word against anyone." All of the coins and collections, the publications and the labors, great as each or all might have been, none meet the test of a man more than that one sentence.

WAYTE RAYMOND'S REMARKABLE ACHIEVEMENTS COULD POSSIBLY BE DUPLICATED, BUT HIS INSTINCTIVE KINDNESS, HIS READY CHUCKLE, HIS DEEP SENSE OF LOYALTY AND DECENCY, WILL BE FOREVER MISSED.

647 **N. D. 2 Reales** of Philip III, 1550-98. Mintmark P (Potosi), assayer D. **Counterstamped with a crown. VG, holed.** **($30.-Up)**
The coin is a decent VG for type, but badly holed. Two-thirds of the countstamp is bold. The stamp's purpose is unknown, but it is not a concoction or whimsical piece. See Byrne sale, lots 1245-47.

648 **N. D. (1556-98). 4 Reales Silver Cob. Fine to VF. ($40.-60.)**
Crowned Spanish arms and inscription of Spain's Philip II, Assayer's initial, B/Cross with Castles and Lions of Castile and Leon in quarters. Potosi Mint. Similar to Philip II's 8 Reales, W. Raymond 1. About as good as you can expect to find these crude early pieces.

It was a common practice in the late 18th-early 19th centuries for jewelers to hallmark foreign coins to certify their acceptability. The "EB" counterstamp is the most famous example, being done by "Ephraim Brasher." It was also the practice to use a plug of precious metal to bring the weight of holed, clipped or other short-weight coins up to standard. The jeweler would then counterstamp the plugged area of the coin and return it to circulation. In some cases, Carribean governments did this officially. The use of plugs for **silver** coins, however, was less common than for gold. The only officially-plugged silver coin that the cataloger is aware of is a piece from St. Vincent (Craig 10a, Pridmore 2). All officially-plugged coins are very rare, as their survival was a matter of accident. They were not collected at the time of manufacture, were often recalled, and were too valuable to escape melting and recoining. All privately plugged-and-counterstamped pieces are extremely rare or unique, this piece being no exception. Several examples in gold are listed in Pridmore's "Unattributed" section of this West Indies catalog. 26.28gms.

POSSIBLE PROOF

736 **1894. 25 Cents.** Silver. Y. 4, Fr. 2. **Superb. Gem Unc. (Photo)** **(——)**

Victoria/Value. Very sharp strike, **brilliant prooflike surfaces and beautifully toned.** If this is not a proof, it certainly comes close to it, as it was struck from polished dies and has the reflective surfaces which result. It is an early strike from new dies, and a coin which has been carefully preserved for these past 83 years. **Uncirculated pieces this choice are extremely scarce,** probably as rare as the proofs, and the present piece appearance-wise would be stiff competition for many of the bona fide proofs we've seen. Undoubtedly destined to bring well over, maybe by several times, the price of a run-of-the-bag Unc.

HUNAN PROVINCE

ONE OF THE THREE KNOWN HUNAN DOLLARS

930 **(1897). Dollar.** Unknown to Kann; pictured but not numbered in Krause. **The third specimen known. Proof, a virtual gem. (Photo)** **($15,000.-Up)**
Chinese inscription/dragon (standard Empire type). Struck in the Heaton Mint, which retains an example in its permanent collection. A second example brought $15,500 in the Paramount, 1975 Long Beach sale. Kann states that Hunan's provincial mint is "one of the few coinage plants in China, which did not strike dollars or half-dollar pieces during the imperial regime." Only the two pieces mentioned and the present lot are in existence. The present offering is a beautifully struck coin, although the surfaces are not as reflective as usual for proof coinage. The toning is a very pretty pink-and-blue color.

We are refraining from proclaiming this coin "absolute perfection", as we feel it is best to be a little overcautious when describing condition. **This is Possibly the rarest Chinese crown, and rarest crown in this sale.** Together with the following lot, it is a once-every-other-lifetime opportunity.

POSSIBLY UNIQUE 1898 50 CENTS

931 **(1898). 50 Cents.** Half Dollar (3 Mace and 6 Candareens). **Not in Kann.** Listed in Krause without number or price. **Proof. (Photo)** **(——)**
Identical to last except for size and value. Struck at the Heaton Mint only in proof; no regular issues were ever expected to exist. This coin was not in the 1975 Long Beach sale, while the Dollar rarity was. Possibly there is said to be an example in the Heaton Mint cabinet but this **has not** been verified. **This is almost certainly the only collectible example in the world.**
It is in deeper shades of the same colors as the last lot; the two pieces having spent their whole lives together. It will be interesting to see if they continue to stay together.

937 **N.D. (1898). Proof Set. Silver 5, 10, 20, 50 Cents, 1 Dollar.** Y. 141-4, 145.3. **(Photo)** **($5,000.-Up)**

All with Chinese inscription/Dragon (standard Empire types). Kann dates this issue to 1897, Krause to 1898. **The dollar has a plain edge, a variety not in Kann.**

Similar Examples of these coins, minus the 20 Cent piece, were offered in the Long Beach sale, with the statement that only two proofs of each were known, one of each being impounded in the Heaton Mint collection. The Dollar was rarer still, the two proofs being the only **plain edge** specimens known. Although the proof population of four of the five denominations is now 3 pieces each, **this is the only collectible complete set to our knowledge.**

Each coin in the set is PERFECT. All are beautifully toned with fully reflective surfaces. Each piece is struck on a perfect planchet.

NASCA is pleased to offer this rarity. Our estimate may fall quickly when the actual bidding starts.

CASED PRESENTATION DOUBLE PROOF SET

939 **(1889).** Double Proof Set in original Heaton Mint presentation case. Two pieces **each of the brass cash and silver 10, 20, 50 Cents. 1 Dollar.** Y. 189, 195.1-198.1, Kann (silvers only) #19, 18, 17, 16. The silvers are **rare in any grade. Presumed unique in this form. Proof. 10 Pcs. (Photo)** **($10,000.-Up)**

The Cash has four Chinese characters on each side and a square center hole.

The silver coins are the first examples of what became the standard dragon type. Kruase value $7,300 in Uncirculated. As the coins were based on 7 Mace and 3 Candareens = 1 Dollar, or one Candareen more than subsequent coinages, they were melted and became very rare). One of the Cash pieces is a sandblast, lacquered proof. The silver coins are all lightly hairlined (the Dollars least so). The two 50 Cents each show planchet adjustment marks. In any case these proofs are extremely rare. In Paramount's long Beach auction, 8/8/75, the cataloguer stated, "that only two of each of the silvers existed, with one of each in the cabinet of the Mint, Birmingham (i.e. the Heaton Mint). The brass proof could be unique . . ."

The case is black leather, with a blue velvet lining and white satin inside cover. The inside and outside covers are both printed, in gold. "RALPH HEATON & SONS,/THE MINT, BIRMINGHAM,/ENGLAND."

THE EXTREMELY RARE SILVER COINS OF SHENSI

Some introductory remarks are in order. The silver coins of **Shensi** are the rarest silver coins of the Chinese Empire. The only known examples are the undated patterns struck ca. 1898. Kann lists the 5, 10, 20, 50 Cents and 1 Dollar examples. Perhaps 25 pieces have been discovered of all five denominations. Other specimens of the 20 and 50 Cents and 1 Dollar appeared in the Long Beach sale, bringing $1,800, $2,300 and $15,250 respectively. We are offering these three deniminations **and the Excessively Rare 5 Cents** Specimen for your serious consideration.

NASCA is proud to have the opportunity to offer these historic Gem Proof examples.

941 No lot.

942 **(1898). Dollar.** Kann 155. **Gem Proof. (Photo) ($15,000.-Up)**
Probably one of 4 in existence. The only other specimen known to have been sold was that in the Paramount Long Beach sale at a modest $15,250.

943 **(1898). 50 Cents.** Kann 156. **Gem Proof. (Photo) ($2,300.-Up)**
Perhaps 1 of 6 pieces in existence with the Long Beach specimen bringing $2,300.

944 **(1898). 20 Cents.** Kann 157. **Gem Proof. (Photo) ($2,000.-Up)**
Probably only four exist. The obverse lacks the attractive toning that characterizes all the other pieces, but remember that the discovery coin sold for $1,200 **in 1948!**

FIRST PUBLIC SALE IN HISTORY

945 **(1898). 5 Cents.** Kann 159. **Gem Proof. (Photo)** (——)
This is presumably the first offering of this exceptional piece in the western world. The famous Paramount 1975 Long Beach sale included many Chinese rarities but lacked the 5 Cent Proof. Rumors of a previous prior sale in the Orient at $10,000 have been heard but unverified. In any event destined to rank among the rarest of the rare.

945A **N. D. 50 Cash.** Large bronze, 50mm. Cr 23-7. **VF. ($40.-50.)**
Issued under Emperor Hsien-Feng (1851-61). Square center hole, 8mm.

SZECHUAN PROVINCE

946 **1891. 50 Cash, Bronze. VF plus.** **($50.-75.)**
Chinese characters on both sides translate partially as "Glorious Leader Chang Tse Ping." Square center hole.

947 **N. D. (c. 1898-1908). 5 Cents Silver.** Y. 234. **Unc. ($30.-40.)**
Dragon-Chinese characters. **Scarce coin.** Planchet lightly clipped and not quite round. Prooflike surface.

948 **N. D. (c. 1898?). 10 Cents. Y. 235. Struck in bronze. Proof.** (——)
Dragon/Inscription. Kann does not catalog any bronze strikes. The consignor marked his envelope "Phila Pattern." There were dies produced in Philadelphia, used in Szechuan in 1898 to strike Dollars, 50 Cents and 20 Cents. Kann never saw any pieces from the 10 Cents and 5 Cents dies and theorized that they were ruined in transit. This piece has four-petaled rosettes; the known 1898 coins have 7-petaled rosettes. It has a wire rim and reeded edge. It is spotty with about 20% mint red. We hope that Chinese specialists will examine this coin personally.

BRASS PATTERN

949 **N. D. (c. 1901-2). Dollar.** Y. 238.1, but **struck in brass.** Not in Kann. **XF. (Photo)** (——)
All Chinese patterns are rare to extremely rare. Chinese counterfeits usually strike off-metal pieces from well-engraved dies, but **this is a product of the official mint.** A most unusual item.

YUNAN PROVINCE

949A **N. D. (1907).** 50 Cents Silver. Kann 213, **XF. (Photo)** **($225.-Up)**
Inscriptions/Dragon. Planchet slightly bent. Light toning, almost prooflike surfaces.

950 **N.D. (1908). 10 Cents.** Silver. Choice. BU. **($40.-60.)**
Chinese Characters/Dragon. No English legends. Scarce one-year type. Satiny surface with attractive iridescent toning.

952 **N. D. (1917). 50 Cents.** Silver. Y. 480. **XF.** **($30.-40.)**
Same type as Gen. T'ang Chi-yao piece as above. Attractively toned.

952A **N. D. 50 Cash.** Large light-colored bronze, 55mm. Cr 26-6. **VF.** **($40.-50.)**

DANISH INDIA-TRANQUEBAR

1067 **N. D. (1623-25). Lead Kas. Gray 4 (RRR). Exceptional grade. ($150.-Up)**
Obverse: DAN/NISH/ORG. Reverse: IUP/TER. The Jupiter was a ship that left Denmark in 1623 and sunk near India in 1625. There is little or no wear. Apparently there is no corrosion, either, but a film of soil. All the letters are fully on the planchet, except for "D" and "O" on obverse and "I" on reverse, each of which is half on planchet. Compare this with the VF example in Christensen's Oct. 1975 auction (which brought $95), with lettering which was only about ¾ on planchet, although exceptional for the type. Gray's estimated price in VF (normal strike) is $150.

1068 **N. D. (1640's). Lead Kas. Gray 30 (RRR). XF. ($175.-Up)**
Obverse: Crowned "C" enveloping a 4 (Christian IV, 1588-1648). Reverse: DAN/MAR/CK. Some corrosion, although the reverse is superb. Within half a grade of the piece in Christensen's 10/76 auction (which brought $165). This, apparently, is the first reported specimen with the "R" and "K" unambiguously present, and verifies the description which Gray reached by supposition.

1069 **N. D. Lead Kas. Gray 71 (RR). F-VF. ($90.-Up)**
Crowned "F.3"/"HAAB." Frederick III, 1648-70. Haab =hope. The right half of the "B" is off planchet, but the obverse is perfectly centered, which is very unusual. Gray's price $110 in VF.

1070 **N. D. (1648-70). Lead Kas.** Gray 82 **(RR). At least VG. ($40.-Up)**
As last/Lion over two hearts.

1071 **N. D. (1648-70). Lead Kas. Gray 84a (R). Fine. ($45.-Up)**
As last/Plain cross. A poorer piece brought $37 in the Christensen sale already mentioned.

1072 **1667. Copper 2 Kas.** Gray 106 (R). The first nonlead coinage of Tranquebar. **VF. (Photo) ($75.-Up)**
Obverse: Crowned "F.3" within a circle, around which is a legend, "ANO.1667". Reverse: Norwegian lion in beaded circle. Some patina, and only the top of the "7" shows, but fairly well-centered and attractive.

1073 **N. D. Lead Kas. Gray 101b. VG. ($50.-Up)**
Crowned "C5" monogram (Christian V, 1670-99)/Crowned "DOC" monogram, "K" below. Not much of the "K" is on planchet, although the piece is well centered. Christensen sale = $59.

1074 **1689. Copper Kas. Gray 108. VF. ($25.-Up)**
Crowned double-C5 monogram dividing "8-9"/Crowned DOC monogram, "W-H" to sides and "VK" below.

1075 **N. D. Copper 2 Kas.** Gray 116 **(RR). F/VG. ($50.-Up)**
Frederick IV, 1699-1730. Crowned double - F4 monogram/DOC monogram over "2 KAS."

1076 **N. D. (1699-1730). Copper Kas. Gray 117 (RR). Fine. ($50.-Up)**
As last, only without value. A bit "rusty". Christensen sale $48; Gray price $65 in Fine.

1077 **1731. Copper Kas.** Gray 122 **(RR). VF. ($50.-Up)**
Crowned C6 monogram (Christian VI, 1730-46) divides "1 - 31"/Norwegian lion. The reverse slightly porous, the obverse more so. Still About Fine.

1078 **N. D. (after 1732). Copper 2 Kas. Gray 125 (RR). VG. ($30.-Up)**
Crowned C6 monogram in circle/Crowned DAC (Danish Asiatisk Co.) monogram over "2."

1079 **1824-1843. Lot of three copper coins. VG to Fine. 3 Pcs. ($50.-Up)**

RARE 1801 RIGSDALER SPECIES

1111 **1801. Rigsdaler Species.** Dav. 71 (called "very rare"), Cr 82 (Denmark), Hede 13a. **VF. (Photo)** **($2,000.-Up)**
Head of Christian VII, 1766-1808/Three-part arms in crowned oval. Struck at Altona and intended for circulation in Norway, although Davenport says that it saw use in Denmark. **A very rare coin - we found no auction records** - and a history of being greatly underrated. Struck on a very slightly porous planchet, as is typical of Danish silver in this period. There are two very faint obverse scratches, better described as "hairlines."
Hede classes this coin as only "R1", which can only be considered an error. Craig's price is based on the commoner dates of similar type and of no use in evaluating this coin. A piece in VF was offered by Windy City Coin Co. for $1650 in 1969. Neither we nor the consignor know of a third piece in the U.S.
Davenport's description of the coin as "very rare" is particularly revealing. Only eight other numbers in his volume European Crowns and Talers since 1800 are so designated (three others are termed "rare"). Of these eight, five are qualified as possibly or probably patterns. One more is priced very modestly in Krause, the seventh (Italy 1901 5 Lire) is unpriced, and the eighth (Westphalia, Dav. 932, Cr 19) is priced at $25,000 in Krause. Davenport does not describe as "rare" any crowns of Greece, Russia or Switzerland. Accordingly, we feel our estimate is conservative, and caution readers that competing bidders may not be as restrained.

1112 **1842. 1 Rigsbank Skilling.** Copper. Cr 120. **Toned AU.** **($25.-30.)**

EGYPT

1171 **(1754). A.H. 1168. 3 Altun.** Not in Craig or Friedberg. **Gold;** 38 mm.; 9.79gms. **AU. (Photo)** **(——)**

Osman III, AH 1168-71 (A.D. 1754-77). Toughra/inscription. Ornamentation around obverse and reverse edges. Accompanied by an INS authentification certificate. Certainly rare and quite attractive, this piece could bring from the middle hundreds to the low thousands. Demand for Egyptian coins is incredible.

1172 **(1836). A.H. 1223-year 30. 20 Guerche.** Cr. 168. **Rare. XF. (Photo)** **($500.-Up)**

Toughra/inscription. Demand for Egyptian coins seems unbounded; so much so that **Krause's $950 valuation** may prove conservative when this nice piece is hammered down.

1173 **1864-1876.** Group of four minor coins. **F+-Unc.** Choice lot. **4 Pcs. ($30.-Up)**

A.H. 1277-year 3. Silver 20 Para. Y. 6. **Fine** +. (2). **A.H. 1293-year 4.** Silver **Guerche.** Y. 18a. **Unc.** and scarce. (3). A.H. 1293-year 31-H. 1/20 Guerche. Y. 13. **Red Unc.,** tiny spots. (4). **A.H. 1293-year 35-H. 1/40 Guerche.** Y. 12. **Red Unc.,** tiny spot.

Toughra/inscription. Krause calls this **10 Guerche.** Slightly dark toning, a few very minor nicks on the obverse rim.

1175 **SUEZ CANAL. 50 Centimes.** Borel Lavalley et Compagnie. CW #7, Krause KM #6. **Choice AU. ($75.-Up)**

Modern ship/Value in beaded circle. 24-sided. Brass, 20 mm. Krause gives the metal as copper, but all Borel's are brass and all Bazin's are bronze. **Scarce condition.**

1176 **1865. SUEZ CANAL. 5 Francs token.** Ch. & A. Bazin. **The plate coin in Raymond's** COINS OF THE WORLD 19th CENTURY (published in 1947). Listed in Krause (unpriced at the end of the Egypt section). **Very Rare. Choice AU. (Photo)** **($500.-Up)**

Ancient galley/Value in wreath. Bronze, 33 mm. 9.85gms. 29-sided edge. Some traces of mint red. Probably a slightly mishandled Unc. In a recent Stack's auction. An XF piece, mixed into a lot of African aluminum coins sold to a dealer for $800 (against a $75 estimate). No other sales are known to us; Raymond himself did not sell his specimen. His catalog price for the piece was $7.50 (on the preceding page an Egyptian 20 Piastres, A.H. 1223, cataloged $5.00). The Bazin firm was subcontracted to dig a part of the canal and was one of two firms that issued tokens (see the last lot for the other firm). Some cafe tokens are also known (see Fonrobert and Neumann). The best reference to date is Courtney Coffing's article in the July, 1971 Numismatic Scrapbook.

A UNIQUE PRESENTATION MINT SET FOR THE SULTAN OF EGYPT

1192 **1916-17. Unique Presentation Mint Set given to Sultan Hussenin Kamil.** Haffner, 2nd edition, pg. 190. **(Photo)** **($3,500.-Up)**
This is the Ben Adams set pictured in Haffner. Egyptian coins were legal tender in Palestine before the introduction of the Mandate coinage in 1927, and this set is considered very desireable by collectors of Judaica. The case is brown leather, very lightly scuffed, imprinted in gold with the Sultan's name under a crown in the center and a single line around the edge.
The coins are ½ Millieme, bronze, 1917; 1, 2 Milliemes, nickel, 1917; 5, 10 Milliemes, nickel, 1916; 2 Piastres, silver, 1916; 5 Piastres, silver 1917, 10, 20 Piastres, silver, 1916; 100 Piastres, **gold,** 1916. The coins are all **selected Uncirculated** examples. The silver pieces have uniform blue and purple iridescent toning, the others are bright. None are mintmarked, the ½ Millieme being struck in Calcutta, the others in Bombay; Yeoman nos. 34-43.
It is very seldom that a numismatist can use that exciting word "unique." The rarity and historical associations of this set make it one of the most desirable lots of this or any other world coin sale. We feel we are offering our bidders a national treasure that might indeed return home.

MEDALS OF FRANCE

1310 **N. D. (c. 1547-1549). Silver Medal** of Henry II. 59mm. **Superb Proof.** **($75.-Up)**

Obverse: Third-length military, laureated bust facing right. "HENRICVS. II.REX.CHRISTIAN SSIMVS." Reverse: Henry II standing barefoot, holding a raised sword in his right hand and a sceptre and bow in his left. He is dressed partly as a knight in armor and partly as a shepherd in robes. Two angels are lowering a laurel wreath onto his head. "HEN/.II." in the fields. Around the edge: "LO. ARMA-MOVET-ET.PACE.ET.BEL." The borders are decorated with large dots, the edge not being raised at all. Struck in the Paris mint, the edge marked "(cornucopia) 1 ARGENT." The "1" is unusual in an edge marking, but we have seen it on a pattern of 1881, and our best guess is that this piece was struck 1880-82. Unfortunately, this beautiful high-relief medal is unsigned.

1311 **1689.** Satirical medal. Silver. 49mm. **VF-XF. (Photo)** **($200.-Up)**

Obverse: A globe imprinted with the French arms, in violent explosion. Latin legend translating "It will destroy itself." In the exergue, "IMP: GALLIC" (the French Empire). Reverse: Louis XIV, sword drawn, obsequiously coughing up money into a bowl held by the Dey of Algiers. He is also being cleaned out at the other end, defecating into a pan held by the kneeling Pope Alexander VIII (who is holding an enema in his other hand). Above is a Latin inscription translating "This necessity can be resisted," with further explanatory Latin in the exergue. The issuer of this medal was displeased with Louis XIV's paying monetary tributes to the Pope and the Dey. Unlike most satirical medals, quickly executed in brass or lead, this piece is quite well-engraved and struck in excellent silver, and as such is more rare, unusual and desirable. Given the papal theme, this medal should prove still more popular with bidders, and our estimate will probably go out the window.

1312 **1791. Bronze medal, 32mm. VF/XF.** **($35.-50.)**

Seated figure of Liberty with Liberty Cap and tablet inscribed "DROITS DE L'HOMME ARTIS/Inscription, "MEDAILLE CONFIANCE DE DEAUX SOLS," etc. Interesting piece of the Revolutionary period.

1318 **1854.** Bronze, 30mm. **XF-AU.** **($30.-40.)**

UNIQUE 1718 FARTHING
HITHERTO UNPUBLISHED AND UNKNOWN

1701 **1718.** Type of 1719. Not in Peck and previously unknown in copper or as a currency strike. **Choice XF** with considerable mint red. **(Photo) (——)**
A discovery specimen! The only 1718 farthings previously known were silver proofs. Neumann (1858) listed a dump farthing of 1718 (#3777) but this is a doubtful listing, possibly a cataloging error or counterfeit piece (Neumann cataloged many contemporary counterfeits without comment). 21mm., 3.65gms.
The discovery of this piece is roughly comparable to discovering a 1910-D Lincoln Cent. This coin created a sensation when exhibited at our table at last August's A.N.A. convention. The only comparably rare British coppers are the pennies of 1808 (a Matthew Boulton cabinet piece, offered for $25,000 about 10 years ago), 1933 (six known, priced at $6,000 in Remick in 1971) and 1954 (recently sold to a British dealer for about $30,000). The value of this piece will probably be depressed by the silver proofs, but a winning bid in the low thousands seems certain, and multiple bids in the mid-thousands would not be surprising. Even a five-figure price would not be out-of-line for the only true farthing of this date.

GOLD TWO POUNDS

1903 **1887.** Jubilee £2 Friedberg 256. **Prooflike Unc. (Photo) ($600.-Up)**
Queen Victoria/St. George and dragon. Fully Prooflike. Apparently struck from polished proof dies just after the run of proofs was completed. Fully struck with mirror surfaces, but some microscopic planchet roughness (l. obv. field) makes it seem unlikely that this was intended as a proof. Certainly worth far more than ordinary Uncirculated examples.

1904 **1887.** Another Jubilee £2. Fr. 256. **Virtually Unc. (Photo)** **($375.-Up)**

A barely detectable trace of obv. friction, and small rev. scrape on the horse's shoulder.

Queen Victoria/St. George and dragon. Lightly wiped or possibly even lightly cleaned with consequent fine hairlines, a couple of these graduated to more visible scratches (lower l. obv. field). UNIQUE AND HISTORIC 1894-H PROOF SET

1941 **1894-H. Proof Set. ¼, ½, 1, 2, 4, Reales, 1 Peso.** Y. 74, 75, 77, 82, 83, 84. **(Photo)** **($1,000.-Up)**

The ¼ Real shows sun over mountains/Value in wreath over five stars, the other values are of one design, the obverse showing a draped goddess holding a cornucopia and scales, one arm resting on an inscribed column. On the reverse a quetzal perches on an independence scroll, with crossed rifles and swords and a wreath filling the background. **There is no better way to appreciate this beautiful design than to see these beautifully struck pieces.** All are nice proofs, the 1 Real with one minor spot on both obverse and reverse, the 2 Reales and Peso especially desirable. All have nice, uniform toning.

In Paramount's Long Beach Convention auction, 8/8/75, a 2 Reales in Proof brought $330; we feel, however, that a complete set especially one which includes the choice crown is a much more auspicious offering, and we anticipate extremely active and high bidding.

SPECIMEN SET

1942 **1894-H. ¼, ½, 1, 2 Reales.** Y. 74, 75, 77, 82. **Set of 4. Very Choice Unc.** **($100.-Up)**

Same designs as the previous lot. All with light, natural toning and very well struck (wire rims). Although not proofs, these doubtless were prepared as **sample specimens** by the mintmaster. Given their pedigree, these exceptional mint state examples should find many active bidders.

1943 **1894.** Group of three foreign **crowns** counterstamped with 1894 ½ Real dies. Coins and counterstamps all **Abt. XF or better. 3 Pcs.** **($25.-Up)**

(1). on **1883 Peru Sol**; (2). on **1878 Chile Peso**; (3). on **1879 Chile Peso.**

1944 **1894, 1895, 1896.** Peso. Y. 84. **XF, AU and XF, 3 Pcs. ($25.-Up)**

THE EXCESSIVELY RARE 1895 PROOF LIBERTY HEAD PESO

1945 **1895-H. Pattern Peso.** One of two known. **Very Choice Proof. (Photo)** **($10,000.-Up)**

Liberty head with laurel in hair/Similar to regular issue. A throwback to the 1882-89 Peso, Y. 73, but a much more graceful design. There is a very light hairline near the lips, and a tiny, almost microscopic contact mark on the rim at 1:00 reverse. A few tiny scratches **in the planchet** are faintly visible in the struck product. Every detail of the design is perfectly struck. The toning is very nice, the obverse especially so, with green, blue and silver hues predominating. It is regrettable that this design was not adopted and the average collector can not obtain an example.

The first piece of this type to "surface" was offered in the Paramount 1975 Long Beach auction, lot 225, realizing $12,000, making it one of a handful of five-figure Latin American coins. The cataloger wrote "To the best of our knowledge, this is the only specimen in existence." A word of clarification is appropriate here. In late 1974, Paramount obtained a large group of Heaton mint coins from an English estate. It appears, however, that Wayte Raymond got his long before, or that the mint master's specimens were divided among more than one heir. Why Raymond "sat on" these rare Heaton coins, we cannot say, although we suspect he retained them as personal favorites. Unlike Paramount, he was only able to secure a small group of pieces, but he did succeed in getting the rarest and most unusual pieces and sets. The truth of this statement is demonstrated by the next lot.

Please note that there are no buyers' charges in NASCA's sales of Foreign Coins.

EXTREMELY RARE 1895-H 4 REALES

1946 **1895-H. Pattern 4 Reales. One of two known. Gem Proof. (Photo)** **($10,000.-Up)**

Liberty head with laurel in hair/Similar to regular issue. **Previously thought to be unique.** Kurt Prober (Historia Numismatica de Guatemala*, 1957) states that a single piece is known, in the Friedberg collection. **This example, the second piece known, is exactly as struck** except for a very light hairline, visible with a 20x glass in the lower left part of the independence scroll. It is quite nicely toned. There are microscopic planchet imperfections that are visible (under magnification) on the struck product. This is true, however, of virtually all proofs struck in the last century, in other than the U. S. and Royal mints.

The similar Pattern Peso brought $12,000 at auction two years ago. It is no rarer than the 4 Reales, two pieces of each being known, but as the Friedberg 4 Reales is not expected to come on the market for some time, if ever, the present lot can be considered that much more desirable.

HONDURAS

THE DISCOVERY OF A NEW VARIETY OF THE 1823 TEGUCIGALPA COINAGE

1988 **1823. ½ Real.** Obverse: DV monogram over date. Border of denticles. Reverse: Spanish arms (castles and lions in the angles of a cross). Border of Pearls. Silver. 11 to 13mm. in diameter, weight 1.60gms. **VF+, holed. (Photo)** **(——)**
In 1923, Howland Wood published his ANS monograph, **The Tegucigalpa Coinage of 1823.** Six years later Julius Guttag's collection of Latin American coins was published, illustrating two of the 2 Reales Wood had described, plus a previously unknown Half Real. The piece now being offered is certainly a product of the same mint as Guttag's ½ Real. The design is the same, except that the "T. L." over the date on Guttag's coin is replaced by the "DV" monogram. The "1" and "8" of the dates were produced from identical punches. The "2" and "3" are not clear enough on Guttag's coin to make a similar statement, but enough of the "2" is present to conclude that it is a stylistic match. Our piece was clipped after striking and has the same shape as Guttag's piece, which is also clipped (we cannot say if the clipping was done before or after striking). All 1823 Tegucigalpa coins are very rare or extremely rare, so much so that they are little publicized and greatly undervalued. Additionally, almost all known specimens are holed, prejudicing many collectors against the entire series. This unique coin must surely be worth more than the Maracaibo (Venezuela) revolutionary coins now being offered almost annually at prices in the low thousands, or the recently discovered Philippines Barillas of the 1700's which are bringing almost as much. Perhaps a more meaningful comparison is with the unique 1821 ¼ Real of Curacao, which brought only $1,100 in the Ray Byrne sale. The last price records for 1823 Tegucigalpa coins we can find is Schulman's 1966 Gibbs sale, where Guttag's pair of 2 Reales fetched $110 and $130, figures which must be regarded as meaningless today (Gibbs apparently did not obtain the Guttag ½ Real). Our best guess is that the winning bidder will pay between $1,000 and $2,000 and get a bargain on a once-in-a-lifetime coin.

In the Farouk sale (1954) these were catalogued as casino tokens. One can also draw the conclusion that there would be no point in presenting a set to Farouk if more than a very few were made. We do not know if any were made in other metals, but they are of exceptional workmanship, incorporating elements of medieval design and village lore, and do not resemble commercial gambling chips.

The Farouk sale stands as one of the great numismatic giveaways of all time. **Even so, these two pieces brought over $150 (£40).** Making a relevant comparison, lot 996, containing Italian 50 Lire of 1926 and 1927 — combined mintage of 70 pieces brought £32. The 100 Lire is 35.5 mm. 32.2 gms.; the 20 Lire, 21 mm and 6.39 gms. Both have reeded edges.

AN UNUSUAL GROUP OF LIBERIAN PATTERNS

("K" Numbers Refer to Ernst Kraus' Article on These Pieces. All are Listed and Illustrated in Krause-Mishler.)

2353 **1865. Pattern 25 Cents in Silver.** K. 11. **Unc. (Photo)** **($200.-Up)**
Just like a U.S. Quarter, except there are palm trees on the shields and the reverse reads "REPUBLIC OF LIBERIA". In our June sale a piece brought $450 (in Proof). The "5" in date is cut over a "1". 22.5mm.

2354 **1868. Pattern 1 Cent.** L. 16. **Brilliant Proof.** **($40.-Up)**
Similar to the 1862 regular issue, without the raised border and incuse legends. Minor spotting. 25mm.

2355 **1868. Pattern 2 Cents.** K. 17. **Brilliant Proof.** **($50.-Up)**
Type similar to last. Minor spotting and a very minor edge flaw (as struck). A piece in our June, 1977 sale with edge nicks brought $55.

2356 **1888. Pattern 1 Cent.** K. 18. **Choice Red Brilliant Proof.** **($25.-Up)**
Shield/value in wreath. Size of a U.S. Cent.

2357 **1888. Pattern 1 Cent.** K. 18. **Proof,** toned red. **($25.-Up)**

2358 **1889. Pattern 1 Cent.** K. 19. **Proof,** toned red. **($25.-Up)**
Type similar to last. A small reverse spot. Uncommon and undervalued.

2359 **1890. Pattern 1 Cent.** K. 30. **Brilliant Proof.** **($40.-Up)**
Obverse as on 1868 pattern. Reverse: Shield in beaded circle. A few spots. 25mm.

2360 **1890. Pattern 2 Cents.** K. 31. **Brilliant Proof.** **($40.-Up)**
As last except for size and value. Some spotting. 30mm.

2361 **1890. Pattern 2 Cents.** K. 33. **Brilliant Proof.** **($40.-Up)**
As last, only the shield as a wreath. The wreath is an exact copy of that on the U. S. 2 Cents. Only minor spots and really pretty!

2362 **1890. Pattern 2 Cents.** K. 35. **Brilliant Proof.** **($40.-Up)**
As last, only the shield is replaced within the wreath by "TWO CENTS/1890." Some iridescent toning and beautiful despite tiny spots. (mostly on reverse).

2363 **1890. Pattern 2 Cents.** K. 35. **Brilliant Proof.** **($50.-Up)**
Half a dozen small spots on each side, and a minor scratch in each obverse field. The only proof in this group with any contact marks. The others not having even a single hairline.

POSSIBLY UNIQUE LIBERIAN PRESENTATION PROOF SET

2364 **1896 H. Proof set. 1, 2, 10, 25, 50 Cents. Y. 4-8. In original presentation case. (Photo)** **($2,000.-Up)**
The coins are housed in an original Heaton Mint red leather case. The interior is green velvet, the inside cover white satin with an inscription, printed in gold: "Manufactured by THE MINT BIRMINGHAM LTD. formerly Ralph Heaton & Sons Birmingham." We do not know of any other cased sets in existence.

The three silver coins catalog $1,350 in Krause, although the 10 Cents and 25 Cents sold for well over catalog in the Paramount 1975 Long Beach auction (that sale did not however contain a proof 50 Cents). All three appear to have been dipped and have a cloudy, but even, blue-gray and gold toning. There are hairlines, and the 10 Cents and 50 Cents have small surface nicks. The 2 Cents is a sand blast proof, apparently polished. The 1 Cent is very brilliant and well-struck but otherwise not much above business-strike quality.

Although the individual coins are not of "Gem Superb" quality, the rarity of this original cased set cannot be disregarded. **The bronze proofs were not even known to exist until this offering!**

REGULAR ISSUES

2365 **1896-H. 1 Cent.** Bronze. Y. 4. **Red Unc.** **($30.-40.)**

2368 **1646. 2 Ducats. Gold.** Fr. 10. **XF. (Photo)** **($2,500.-Up)**
Facing bust of Queen Christina of Sweden/Crowned shield. **Very rare one-year type.** Livonia, a Baltic province, had been ruled by Poland for many years and now makes up much of present-day Latvia and Estonia.

LUXEMBOURG

2369 **1946. 100 Francs.** Y. 35, Dav. 218. **Choice Unc.** **($30.-40.)**
Plain head of Prince Jean/Armored King John ("John the Blind") on horseback/Marks the 600th anniv. of the death of John the Blind.

Scattered light handling marks on obv. of 100 F.

Obverse: Stylized, standing queen. "+SINDIS + – + ERME +." At bottom, in tiny letters, "VICTOR ZURM 1963." Reverse: Arms on a triangle. "+ COMITISSA LUCENBURGENSIS 1196-1247." Reeded edge. Zurm has cleverly mimicked medieval style.
Modern gold medals, with a few well-advertised exceptions are scarce, interesting and attractive.

MADEIRA ISLANDS

2372 **1842. X Resi.** Cr. 2. **Choice Brown Unc.** **($50.-Up)**
Crowned arms, and inscription of Maria II (1834-53) of Portugal/Value within wreath. Some red.

MALTA

Wigged armored bust of Anthony DeVilhena, Grandmaster 1722-36/Crowned baroque shield. Evidence of jewelry use, yet not a very damaged coin. Friedberg $1,500; this piece should bring a third of catalog, at least.

MARTINIQUE

PROOF ESSAI

2374 **1897. 50 Centimes. Piefort Essai.** Y. 1, VG 4314. **Rare. Proof. (Photo)** **($150.-Up)**
As next except for size and value. Identical toning. Byrne sale $130. Should top $250 today, as these have always been rare.

2375 **1897. 50 Centimes.** Y. 1. **Unc.** **($30.-Up)**
The obverse with some mottled toning, the reverse lovely.

PROOF ESSAI

2376 **1897. 1 Franc. Piefort Essai.** Y. 2. VG 4311. **Rare. Proof. (Photo)** **($175.-Up)**
As regular issue only double-thickness and stamped "(cornucopia) Mchor ESSAI" on edge. (Mchor=Maillechor-nickel-brass). Mottled golden toning. Brought $150 in the Ray Byrne sale — values have doubled since (Byrne's piece was rubbed and had a long edge chip).

2377 **1897. 1 Franc.** Y. 2. **Very Choice Unc.** **($50.-Up)**
Richly dressed woman, third-length bust left. By A. Borrell/Value in wreath. Matte obverse, prooflike reverse. Light golden toning. **Magnifique.**

MAURITIUS

2378 **N.D. (1822). 25 Sous.** Cr. 31. **Abt. XF.** **($50.-Up)**
Inscription in circle, obv. and rev.: "RECU AU TRESOR/POUR 25 SOUS." Nearly as scarce as the 50 Sous (they are usually found in pairs in old collections).

2379 **N.D. (1822). 25 Sous.** Cr. 31. **XF.** **($60.-Up)**
As last. The border is weak at the top of the obverse, corresponding to some adjustment marks at the top of the reverse. These last four lots comprise a very unusual offering of early Mauritius coins in excellent condition.

2380 **N.D. (1822) 50 Sous.** Cr. 32. **AU.** **($100.-Up)**
Trees within circle/Value within circle. French legends (although already twelve years under English rule). Slightly weak on a small part of the obverse, a few adjustment marks and a tiny rim nick at 11:00 on the reverse. Some mint color, unusual on these low-grade silver coins.

2381 **N.D. (1822). 50 Sous.** Cr. 32. **AU.** **($100.-Up)**
As last. Similar condition, not quite as nice-looking but without the tiny edge nick.

2382 **1878. 2 Cents.** Y. 2. **Unc.** **($40.-Up)**

2383 **1878. 5 Cents.** Y. 3. **Unc.** **($50.-Up)**
Obverse dark red with spots. Reverse full original color only slightly subdued in brilliance. We note a printed "dealer buy" of $38.

2384 **1878. 10c.** Y. 4. **Choice Unc.** **($50.-Up)**
Victoria/Value. Nicely toned.

2385 **1882-H. 2 Cents.** Y. 2. **Nice Unc.** **($60.-Up)**
Mauritius coins, in common with many coins shipped to far-off British colonies, tend to be well bag-marked, similar to U.S. coins. This is rather nicer than average in that respect, and mostly red in color.

2386 **1882-H. 5 Cents.** Y. 3. **AU/Unc.** **($50.-Up)**

2387 **1883. 2 Cents.** Y. 2. **Fully Prooflike Unc.** **($100.-Up)**
Victoria/Value. No proofs are known for this date, thus this piece may be the **finest known** and should attract considerable bidding. A wire edge is about half complete. There are hardly any bagmarks. The color is lovely, ranging from full brilliance and gold to lavender. **For connoisseurs.**

2388 **1884. 5 Cents.** Y. 3. **Full Red Unc.** **($50.-Up)**
Faint handling on obverse.

2389 **1886. 20 Cents.** Y. 5. **Unc.** **($50.-Up)**
This and all the following shows a young, diademed head of Victoria on the obv., and the date, value and "MAURITIUS" on the reverse. An offering of so many choice coins from this tiny African isle is a fortunate fluke, and we respectfully caution bidders not to expect the like again.

2390 **1888. 2 Cents.** Y. 2. **Choice Unc.** **($50.-Up)**
Mostly red.

2391 **1888. 5 Cents.** Y. 3. **BU.** **($50.-Up)**
A small area of darker toning and the most trifling of carbon spotting.

2392 **1888. 5 Cents.** Y. 3. **BU.** **($50.-Up)**
About the same as the last.

2393 **1888. 1, 2 and 5 Cents.** Y. 1-3. **Red Unc. 3 Pcs.** **($75.-Up)**
Very scarce condition. Minor spotting (very minor on the 5 cents), more noticeable on the 1 Cent reverse.

2394 **1889-H. 10c.** Y. 4. **Unc.** **($25.-Up)**
Victoria/Value. Rainbow toning.

2395 **1889-H. 20c.** Y. 5. **Unc.** **($50.-Up)**
Victoria/Value. Some mottled toning.

2396 **1890-H. 2 Cents.** Y. 2. **Choice Unc.** **($50.-Up)**
About half red.

2397 **1896. 2 Cents.** Y. 2. **Choice Unc.** **($30.-Up)**
Faintly prooflike. Some loose grime on the reverse which should (and can easily) be cleaned.

SPANISH COLONIAL ISSUES 1521-1810

CHARLES I 1521-1556

EXTREMELY RARE 4 MARAVEDIS

2398 **N.D. 4 Maravedis.** Struck ca. 1542 in the name of Carlos and Johanna, 1504-16. Guttag 2433. **The very rare "early series" 4 Maravedi. VF+. (Photo)** **($1,500.-Up)**
Obverse: Crowned "K" flanked by lion and castle. Legend: "(cross) KAROLVS (rosette) ET (rosette) IOHANA (rosette) REGES." Reverse: Crowned "I" flanked by lion and castle. Legend: "(cross) HISPANIARVM::ET::INDIARVM." Ex Howard D. Gibbs, who obtained it from Charles E. Clapp. The early series 4 Maravedi is distinguished from the later copper coinage by the smaller round-bottomed crowns. Robert Nesmith, whose 1955 ANS monograph, "The Coinage of the First Mint of the Americas at Mexico City, 1536-72", remains the standard, knew only two specimens, those of the ANS and F.C.C. Boyd. Utberg states that 10-15 exist. The reverse legend is an unpublished variation. The "IO" and second "A" of "IOHANA" are weak, "R" of "REGES" barely discernible. "IND" of "INDIARVM" is barely discernible. The lion on the obverse is weak. Otherwise the coin is VF+ and **easily better than Nesmith's plate coin.** This is the first copper coin struck in the New World. Less important Venezuelan coppers are now bringing $3,000; our estimate notwithstanding, we feel anything less would be a bargain for this coin.

2399 **N.D. 4 Maravedis.** In the name of Carlos and Johanna, 1504-16, but struck after 1542. **XF. (Photo)** **($400.-Up)**
The late series type, the crowns now much larger and flatter. Nesmith #10, legends 20 d. The proud Aztecs refused copper money and threw these coins into lakes and gutters, rather than spend those pieces forced on them by the Spanish. Copper was not used again until 1814.
This coin is somewhat porous but with **absolutely full legends.** Not quite equal to Nesmith's plate coin. Ex Gibbs

Please note that there are no buyers' charges in NASCA's sales of Foreign Coins.

RARE DATE ERROR

2428 **(1807). 8 Reales.** Through engraver's error the date is inscribed as 1870. Type of W. Raymond 13. **Choice AU. (Photo)** **($125.-Up)**

Laureate bust of Charles IV/Crowned shield. Mexico City Mint, Assayer FM. Utberg (p. 51) lists this error specimen as being "very scarce." The coin is of solid silver and of excellent workmanship.

2429 **1808-Mo/TH. 2 Reales.** Cr. 79. **VF-XF.** **($50.-Up)**

Laureate bust of Charles IV/Crowned shield between two pillars. Mint lustre, golden toning, all fields very subtly retooled as revealed under examination with a 10x glass, but the coin still gives a nice overall impression.

PROVISIONAL, ROYALIST AND INSURGENT COINAGES 1811-13

TWO GREAT RARITIES OF THE PROVISIONAL COINAGE

2430 **1811. Nueva Viscaya. 8 Reales,** Cr. L74 (called "RRR" in Good), Fonrobert 6776. Not in CC or Vicenti, even Guttag did not have a specimen. Manuel Angel Oritz **Moneda de la Nueva a Viscaya, etc.** (published 1965). Lists the ten examples then known. In Superior's November, 1971 auction of Dr. Pradeau's collection, they state "there are less than 15 known specimens of this very rare coin." This piece is the rariety with fine leaves and **"REY", not "REI."** On the obverse (side with the shield), half the legend is clear and nearly all of the shield and pillars show, but only the left third of the crown remains. Most of the weakness is due to heavy adjustment marks, and there is a small clip at 4:30. The reverse clearly shows .MON and NUEV.VIZCAYA (last two letters weak). The local arms are mostly weak but almost all visible. The crown is barely visible and the date is gone. No adjustment marks. The coin is actually VF/F for wear with no post-striking impariments, but is best called **Good for type,** which is average condition. Much better than the piece illustrated in Schulman's March 1966 Gibbs Sale. sale.

The only comparibly rare provisional Royalist 8 Reales are Catorce ($13,250, VF, in 1971) and Durango ($7,900, VG, in 1972). **(Photo)** **(——)**

At least four different die varieties of this very rare crown are known. Riddell, chief assayer of the New Orleans mint, pictured three in **Mongraph** and commented that 4-5% of the Mexican dollars brought in for melting were still (in 1845) revolutionary types. The long circulation (Nueva Viscava's are known with counterstamps for her Mexican districts and even for the Philippines), and heavy adjustment marks have made what was probably a moderately high-mintage coin into a great rarity, almost unique in better-than-shabby condition.

2431 **1811 R.M. 2 Reales, Durango.** Provisional type with armored bust (not the standard royalist type). Listed as #11 in Angel Ortiz book, an example known in the Banco de Mexico collection. **Not listed in Craig, Utberg, or any other book.** The type is the standard royalist bust/arms design, but with the legends: obverse: FERN.VII.-REI.DE ESP.EIND (date at bottom left), Reverse: MON.PROV.DE DURANGO.2R.R.M.

Superior Galleries auctioned one of these coins in its September, 1970 sale of Dr. Pradeau's coins. Perhaps a grade better than our piece, it brought a staggering $1225. Minor silver coins of Durango are all very rare. A VF 1 Real, 1814-MZ, brought $400 as far back as 1966 (Schulman's Gibbs sale — Gibb's had only this one minor silver coin from Durango). In Superior's March-April 1971 sale, a 2 Real, 1812, standard Royalist type (Oritz 18), VF with almost no legend, brought $1050. In Superior's December, 1972 sale, an 8 Reales with a standard Royalist obverse, but with a reverse similar to the provisional 2 Reales, made its first appearance. Described as "VG" and estimated at "well over a five-figure price", it realized $7,900.

Our piece, the fourth known to us of the two provisional types, shows a nice date, about ¾ of the legends, and is VG with many light scratches. A prize. **(Photo)** **(——)**

2432 **1812 4 Reales. Sombrerete.** Cr. L134. **VF/F,** 95% full strike, small flan split at top, the "18" of date weak as always. Much better than the piece in our June sale which brought $180. **(Photo)** **($275.-Up)**

This is an underated type, scarcer than the similar 8 Reales, with auction records over $300 in the mid-sixties. **Craig prices it at $200 in Good!** This exceptional strike would be a bargain at twice our estimate.

2433 **N.D. (worn off). 4 Reales,** as last, **Fair,** date worn off. We will estimate it at half Craig's price. **($100.-Up)**

2434 **1811. Sombrerete. 8 Reales.** Cr. L136. This date is listed by Craig and Vicenti, but not by C-C. **Fine or better for wear. (Photo)** **($300.-Up)**

The obverse is somewhat extraordinary in that the value and legends are complete. (Half the "8" is off-flan and "RETE" is weak.) The reverse is weak, especially the date, with "VAR-GAS" not struck up at all. Utberg (1970) prices the 1812 of this type at $180, but the 1811 at $300.

2435 **1812. 8 Reales. Sombrerete.** Cr. L136, C-C-12072, Vicenti 1170. **Technically XF,** with nice toning but only 70% struck up. **(Photo)** **($200.-Up)**

A marginally better piece brought $250 in our June 1977 sale.

2436 **1812. 8 Reales. Vargas.** W. Raymond 25; Cr. L136. **VF** sharpness of existing detail. **(Photo)** **($200.-Up)**

Crowned arms, inscription "VARGAS" in large letters in semi-circle, small crown and date. Usual crude strike upon a tiled down and worn 8 Real piece. Rather unevenly struck. Partial but nearly complete impression. Adjustment file marks on both obv. and rev. **Extremely scarce.**

2437 **1811. 1 Real. Zacatecas.** Type with mountains (badly worn on this specimen). Cr. L182 C-C. 11457, Vicenti 552. Overall, **Good +.** **($40.-Up)**

2438 **1811. 2 Reales, Zacatecas.** Type with mountains. Cr. L183 ($60 in Good). C-C. 11639. Vincenti 787. **VG. ($75.-Up)**

2439 **1811. 2 Reales.** Zacateca. **G+.** **($50.-Up)**

2440 **1811. 2 Reales.** Zacatecas. **Abt. Good.** **($30.-Up)**

2441 **N.D. (Probably 1811). 2 Reales. Zacatecas. Fine,** 15% off-center, date and some legend off-flan. **($30.-Up)**

YURIRIA COUNTERSTAMP(?)

2442 **1811. Zacatecas.** As last, **Good,** holed. **(Photo)** **(——)**
There is a circular counterstamp of letters in a floral design, not clear **but probably the JML** counterstamp of Jose Maria Liceaga, for the Island of Yuriria. (A rare counterstamp and the only coins of Yuriria). Also with two trivial counterstamps, the single letters "I" and "V".

2443 **1811. 2 Reales, Zacatecas.** The rarer type with castles and flowers. Cr. L183a (at $100 in Good). **Obverse Fine** with weakness at top, **reverse almost blank.** Holed. **($40.-Up)**

2444 **1812. 2 Reales, Zacatecas.** Provisional type with armored bust. C-C. 11664, Vicenti 789, Cr.L187 (priced as "Rare"). **F/VF** with nearly full legends obverse and reverse. **(Photo)** **($200.-Up)**
Faint scratches and digs in right obverse field, small but heavy edge nick at 4:30 obverse.

2445 **1811. Zacatecas. 8 Reales.** Type with mountains, Cr. L184, C-C. 12047, Vicenti 1181. **VF/XF. (Photo)** **($200.-Up)**
Everything bold except for a small part of the legend, which is still very clear. A cut on the mountains may have been done to adjust weight. Some very trifling edge nicks. Decidedly better than the piece which brought $160 in our June, '77 sale.

2446 **1812. Zacatecas. 8 Reales.** Provisional type with draped bust. Cr. L189a (at $125 in Fair), C-C. 12075, Vicenti 1183. Unusual obverse legend .FERDIN . VII . 8R . —DEI.GRATIA. **Technically VF/XF. (Photo) ($175.-Up)**
Scratches on reverse, but only about ten letters/numerals show on each side of the coin (the date is bold). Utberg calls this an "average coin" for the type.

2447 **1812. Boldly dated.** As last. Struck on a debased silver planchet with a silver washing, probably a contemporary counterfiet (which would only slightly affect the coin's value). In overall appearance, Good for type. **($75.-Up)**

2448 **1812. Another.** Same comment as preceding lot. **Abt. G for type** **($65.-Up)**
The cataloger assumes the two preceding lots are counterfeits because the metal resembles that of other early 19th century Mexican counterfeit 8 Reales. They cannot be condemned on the basis of workmanship as the genuine dies are as poorly engraved. Riddell's assays for Zacatecas 8 Reales indicate a normal silver fineness of .900.

2449 **1813. 1 Real. Sud (Morelos).** Cast silver. C-C 11479, Vicenti 500, Cr. L162 (struck). **XF.** (Brought $50 in the Pradeau sale, 1970) **($50.-Up)**
The authenticity of silver Morelos coinage is controversial, we note, however, that in J. L. Riddell's **Monograph of the Dollar** (New Orleans 1845) a Silver Morelos coin is pictured as being one type of Mexican dollar then being brought to the New Orleans Mint for melting. A similar specimen realized $50 in the 1970 Pradeau Sale.

2450 **1813. Tierra Caliente (Hot Country). 8 Reales.** Copper. Cr. L175. **Fine+.** **($20.-30.)**
"T. C. SUD." within circle/Large "M" value and date. Issued under the Rebel General and Mexican national hero Jose Maria Morelos. Light scratches.

2451 **1813.** Another. **8 Reales.** Copper. Cr. L175. Fine/VG. **($25.-30.)**
"T. C. SUD" within circle/Large "M" value and date. Issued under Jose Maria Morelos.

2452 **1814 GaMR.** (always cataloged as MR but the coin plainly reads MB). **Guadalajara. ½ Real.** Cr. 117. **($100.-Up)**
Minor coins of this mint are rare. Utberg prices the 2 Reales of this date at $100 but the 1 Real and ½ Real are only priced as "Rare." **AU.** some digs, a trivial planchet crack and a weak spot on the crown. Dr. Pradeau's specimen described as "worn but legible, brought $82.50 in Superior's September 1970 sale.

2453 **1815 Z/AG. ½ Real. Zacatecas.** Armored bust, Cr. 107. **XF, small scratch on bust.** **($60.-Up)**
A scarce subtype with the value in the reverse legend ("M" for Medio Real). The stops in the reverse legend are circles, not dots. The only Mexican coin we have noted with this feature.

2454 **1819-ZS/AG, 1 Real. Zacatecas.** Armored bust (Cr. 108, this date not in Craig). Utberg (1970) lists at $20 (VF). **$50.-Up)**
Unc., Very light scratch in obverse field. Really scarce in this grade.

Very similar to, and of the same origin as, Buttrey 25, which is dated 1831-DoRL stylistic differences from regular Mexican coinage include the rays and "LIBERTAD" on the obverse, and the wreath and fat snake on the reverse. The weight is 21.32 grams (27.07 is standard) and the planchet is thinner than usual. There are areas on the coin's surface where the plating did not take well, but the piece a virtual **GEM** as struck.

THE FAMOUS 1 PESO MAXIMILIAN DIE CRACK

2531 **1866-Mo.** Y. S36. W. Raymond 64. **XF.** **(——)**
Emperor Maximilian/Crowned and supported arms. This specimen has an ominous die crack that splits Maximilian's head. Legend has it that one die broke slightly around the forehead area during the first strike. Then on the 36th strike, the die shattered completely, Maximilian's age at the time of his execution. A bullet entered the ill-fated Emperor's skull at the point where the portentous die had cracked! This coin, once polished, is still a sharp XF. Worth a generous bid.

2532 **1866-Mo.** Y. S36, W. Raymond 64. **XF.** **($70.-80.)**
Emperor Maximilian/Crowned and supported arms. Nicely toned.

2533 **1866-Mo.** Y. S36. **XF.** **($70.-80.)**
Maximilian (1863-67) was placed on the Mexican throne by a coalition of European interests, chiefly French and Austrian. Mexicans soon regained their Republic and Maximilian was captured and executed, partly because he was too idealistic to flee. This "foreigner" remains the most romantic and tragic figure in Mexican history.

2538 **1866-Go.** Y. S36, W. Raymond 64. **AU. (Photo)** **($500.-Up)**
Emperor Maximilian/Crowned and supported arms. Somewhat scratched and later polished . . . the scratches are on the crown, above the head and across the throat with an "X" on the forehead where Maximilian was shot by Mexican troops. The defilements are probably contemporary with the execution. A VF/XF brought $800 in the 1975 Los Angeles Superior A.N.A. Sale. Brilliant Rainbow toning. Excessively rare.

Head of the ill-fated Emperor/Imperial arms supported by griffins. Only 8,274 of this were minted. This coin's surfaces show heavy jewelry use. The edge has one light file mark, otherwise the reeding is complete. There are a few edge nicks, all quite small. Still rare and extremely popular coin. Friedberg $1,500.

The next seven lots are European-made patterns intended to solicit coining contracts in Mexico. They are all identical, except that the reverse shows a different state name on each piece. The obverse has a liberty head, below which is a tiny eagle head, biting a snake. "REPUBLICA - MEXICANA." The reverse has "DOS/CENTAVOS" in a circle of lilies, "ESTADO DE (state name)" around the edge and *1890* below. All are Unc., although sometimes called proofs.

GOLD KEY TO THE CITY OF VERA CRUZ, 1904

2606 **1904. Presentation "Key to the City" of Vera Cruz.** 18 Karat gold, over 2½ ounces of Gold 145 mm. in length. In presentation case **with two 1904 silver Pesos.** Presented by the Governor of the state on Feburary 27, 1904, on the occasion of the opening of the sanatarium and water works. **In perfect condition except for a patch on the top of the case.** (——)

The key is fitted into the center of the plush case, the coins both **Uncirculated** laying beside it. The handle of the key has a raised floral border with a crown at top. Fitted into this border piece is a plain, heart-shaped disc. On one side is fastened a shield of arms, showing the Spanish castle over the pillars of Hercules, draped with banners inscribed "PLUS" and "ULTRA." The other side is inscribed: "Inauguracion/de las Obras de Sahaemiento/y Provision de Aguas de Veracruz/Riecuerdo de/SIR WEETMAN D. PEARSON/Para el Gobernador del Esdo/DON TEODORO A./DEHESA."

All in script except for the names. The shield of arms and inscription are hand-engraved, the border is hand-finished. The shaft is engraved (on the side with the shield): "Veracruz Febrero 27-1904" (in script). The whole piece is of exceptional beauty and craftsmanship. The case is 25 x 17 x 4 cm, with dark blue velvet exterior and yellow velvet lining. The inside cover is white satin and bears the maker's name, printed in gold: LA ESMERALDA/HAUSER, ZIVYyCia/MEXICO-PARIS/Or 18 Carats.

Obviously, the appeal of this beautiful piece is not limited to the numismatists, although we feel that its historical interest places it almost in the category of a medal or decoration. It will be interesting to see what groups of collectors emerge as serious bidders for this prize.

MOZAMBIQUE

2624 **N.D. (c. 1767-79). MR Monogram, counterstamped on a Potosi Cob 4 Reales. Rare. Cob. Fine, stamp AU.** **($200.-Up)**
The governor of the Portuguese colony Mozambique and Rios, Baltasor Manuel Pereira do Lago (1765-79), ordered that certain coins in the colony be stamped with the MR monogram. This order was dated May 28, 1767; we do not know for how long the counterstamp was applied.

An 8 Reales with this counterstamp, Santiago Mint, brought $6,000 in a recent auction. The Gibbs 1966 auction had seven 8 Reales but only one 4 Reales with this counterstamp.

2625 **1843.** "Onca" of **6 Cruzados.** Cr. 62. Very scarce and unusual crown. **VF. (Photo)** **($100.-Up)**
21 x 32mm. rectangular planchet. Large "M" over date/"ONCA" over "6 Crs." Counterstamped (obv. & rev.) in the upper right and lower left corners with a retrograde "P" in a circle of dots (the counterstamp raised). Also counterstamped on the "M" with a star, the rays incused but with a raised dot in center. Naturally this flattens some of the reverse.

2626 **1845.** "ONCA" of **6 Cruzados.** Cr. 62. **XF. (Photo) ($150.-Up)**
Type as last. Somewhat scarcer date. There is considerable "original mint color" (such as existed for this necessity type) and all of the design is at least faintly present. We suggest that you not wait for a better example to be offered.

2627 **(1887). Crowned PM counterstamp** on a Maria Theresa Taler. Y. B1. **Coin Fine, stamp VF. ($50.-Up)**
The coin is tarnished and the stamp is slightly weak. The stamp was used on over 100,000 coins and became worn.

JETTON OF SPANISH NETHERLANDS

Obverse: A pair of mounted Knights and a pair of standing Knights, each fighting with swords. Latin legend translating, "Fighting for their country, they excel." Reverse: Two nude, headless men, lying beside the poles which hold their heads. "What a false peace they make!" 1579. This famous piece refers to the execution of the Counts of Horn and Egmont, ordered by the Duke of Alva, the Spanish governor in the Netherlands. This outrage sparked the successful revolution in which the northern territory became the seven United Provinces.

2635 **1598. Zeeland. Daalder.** Type of Bachtell 860. **F/VF. ($60.-80.)**
Armored knight standing with shield/Eagle. Beautifully executed large size crown.

2637 **1651. Gelderland Liondollar.** Delmonte 825, Dav. 4849. **Fine+. (Photo) (——)**
Cavalier standing behind shield/Rampant lion. Second only to Spanish-American 8 Reales as a silver trade coin. This one has been formed into an octagon (without damaging the coin's faces) and mounted, solder being present at 3:00 reverse. Highly unusual, reminiscent of the Spanish heart-shape cobs.

2638 **1656. Gelderland Rixdollar.** Delmonte 938 **(R2 date),** Dav. 4828. **VF. (Photo) (——)**
Delmonte uses **"R2"** to indicate that a coin is **very rare.** Half length figure of Knight holding sword and provincial arms/ Crowned shield of the United Provinces, date 16-56 in fields. The mintmark, a seated dog, is on obv. and rev. Very slightly porous, with a weak spot through the upper right corner of the shield.

Obverse: Bundle of arrows divides "I-S", all within a wreath. Reverse: "(Utrecht mintmark - a shield)/TRA/IEC/TUM/1748." Regularly issued only in 1738-9, 1760, 1765, thus a scarce type.

2642 **1767. Calendar medal. Choice XF. (——)**
Obv.: Youthful bust of William, Prince of Orange (who in 1815 became the first Dutch King) over ornamental sprays, legend around edge/a calendar of Sundays, similar to the English calendar medals. By Visset. Brass, some silvering. Far more interesting and scarcer than calendar medals with almanacs on the obverse, and **unusually well preserved.**

2643 **1794. Holland. Gulden.** Cr. 13. **XF. ($50.-Up)**

2644 **1795. Westfrisia. 3 Gulden.** Cr. G36. **Abt. XF. (Photo) ($125.-Up)**
Goddess standing/Crowned shield of the United Provinces.

Bust/Crowned, quarter arms of Holland and Napoleon. Mottled but attractive reverse toning, very slightly undersized planchet. Krause $500, but demand from the Netherlands probably has raised the price from that level.

The "3" over "2" and the "0" over "4". Only the bottom of the "4" shows under the "0". Lightly cleaned, retoning nicely.

Obverse with Queen Wilhelmina (1890-48) as a young girl. Perhaps the most popular Dutch coin. Very bright from a light cleaning.

2664 **1783. Java. Rupee.** Silver. Cr. 17. **Choice AU+. (Photo)** **($125.-Up)**
Date, inscriptions in Arabic/Inscriptions. Struck in the islands under the United East India Company. **Extremely rare in this high grade.** Planchet a bit irregular, reeded edge. Mint lustre and nicely toned. **Seldom offered in this outstanding condition.**

2665 **1787.** Lot of five **Dutch colonial copper coins. Poor to VG. 5 Pcs.** **($20.-Up)**
(1). **Ceylon. 1787. Stuiver.** Cr. 5. **Good.** (2). Same. **VG** but dateless (3-5). Three rectangular coppers that came in a group of Java banks; these are much too worn for positive identification.

(1). Doit with "child in swaddling" mintmark (sometimes called a "mummy".) Struck 1817. Thin mummy variety. **XF.** (2). Doit with 'star" mintmark, struck 1840-3. Two pieces both slightly double-struck, **VF** and **Fine.** An unusual lot.

2667 **1799. Java. 1 Stuiver.** Lead-Bronze. Cr. 34. **Fine+. ($35.-50.)**

2668 **1804. Copper bonk ½ Stuiver.** Cr. 30. **Very rare. Fine or better** for this. **($125.-Up)**
Krause value of $100 is much too low. The first or second scarcest bonk type, depending on how one rates the 8 Stuiver of 1803.

2669 **1804. Java Rupee.** Cr. 37. **VF+.** **($75.-Up)**
Native script both sides. Moderate adjustment marks.

2670 **1808-1826.** Choice lot of **Copper coins. AU to Unc. 4 Pcs.** **($50.-Up)**

2671 **1808. Copper bonk 2 Stuivers.** Cr. 48. **F/XF.** **($100.-Up)**
Technically XF but the obverse is not boldly struck. These bonks were made from copper rods imported from Japan. The rods had a red gilding, which is still very apparent on this excellent coin. The "1" is barely on the flan.

2672 **1808. Java. Rupee.** Silver. Cr. 52. **Choice AU+. ($125.-Up)**
Date, inscriptions in Arabic/Inscriptions. Struck under Louis Napoleon, King of Holland. **Extremely rare in this very superior grade.** Reeded edge, mint lustre and nicely toned.

2673 **1810. Copper bonk 1 Stuiver.** Cr. 47. **A scarce error** variety. **Technically VF,** but extremely crude. **($40.-Up)**
"S" in the denomination is retrograde. The first and last digits of the date are indecipherable but the date must be 1810.

A SCARCE PIECE FROM THE BRITISH OCCUPATION, 1811-16

2674 **(1813). A.H. 1668. Rupee.** Cr. 59. **Unc. (Photo) ($200.-Up)**
Native inscriptions on both sides. The date should be A.H. 1228. An arabic "2" is a "6" backwards, a subtlety missed by the Dutch officials at the Sourabaya mint, who kept their positions through the occupation.

2675 **1818. Copper bonk ½ Stuiver.** Cr. 68. **XF with original red gilding.** **($50.-Up)**

2676 **1818. Copper bonk 2 Stuiver.** Cr. 69. **Superb XF with original red gilding.** **($75.-Up)**

2677 **1840. 1 Gulden.** Cr. 74. **VF+.** **($60.-Up)**

EXTREMELY RARE MATTE PROOF CROWN

2697 **1953. Crown.** Y. 35. Commemorating the coronation of Elizabeth II. **Matte Proof. (Photo)** **($750.-Up)**
Young head of Elizabeth surrounded by legend in English/ Crowned monogram in ornamental field. 28.20 gms. Copper-nickel. Our best information is that in the mid-1950's the Royal Mint in London was experimenting with matte proofs. Using dies of other than British coins, a few examples were made, i.e. **five or six of each type.** Our information comes from a respected dealer who owned three different of these matte proof types, and whose information came from a high-ranking official.

We feel this is an outstanding opportunity for the collector of patterns, crowns, commonwealth coins, oceana, or 20th century types. The 1949 New Zealand crown in proof, with a mintage of 25, catalogs at $610. in Krause. Surely this coin is worth a good deal more.

2698 **1953. Proof set. ½ Penny through Crown,** eight coins. Y. 28-35. **($60.-Up)**
Uncased. Each coin is choice. **Mintage of only 7,000.**

ONE OF THE RAREST COINS OF THE MODERN WORLD
1 of 2 KNOWN

2727 **1947. 1 Mil. Y. 1. Extremely rare. Unc. (Photo) ($3,000.-Up)**
Red and golden mint color, with some light toning, mostly on the reverse. Very faint finger print traces. 2,880,000 pieces were minted, along with similarly high totals for the 1947 2, 5, and 10 Mils. Reportedly, all 1947 coinage was melted, although a few pieces escaped that fate. We believe that this coin, and a piece sold by Glendening four years ago, are the only 1947 1 Mil coins known (The British museum lacks an example.) As these were struck in the Royal Mint in London, not contracted to a private mint, there is little chance of new examples appearing.

The unusual, trilingual (English, Hebrew and Arabic) coins of the Palestine Mandate were introduced in November, 1927, and demonetized on September 15, 1948. The ending of this coinage symbolizes the ending of millenniums of foreign domination of the Israeli nation. The historic significance of this piece is underscored by the fact that a specimen may never again appear for sale.

Orllie-Antoine de Tounens set up his short-lived Kingdom in southernmost Chile among the Araucanian Indians. He was soon arrested and deported to France. It was there that de Tounens, a lawyer, eventually issued these unofficial coins, selling them for revenue. Because they are as much political tokens as numismatic fantasies, not many are seen in choice, uncirculated condition. Not really patterns or fantasies, they are best described as pretend or unofficial coins.

A second specimen, a later die state as evidenced by a second cud, between "NOUVELLE" and "FRANCE."

Struck in the name of Isabel II, 1833-68. Weakly struck along the very edge at the bottom of the coin. Nice planchet. A slightly better piece brought $260 at the 1977 CICF auction; a much worse piece then brought $140 (both coins, Ray Byrne).

RARE PATTERN

2795 **1865. 50 Centimos.** Y. 5. **Choice BU, Prooflike. (Photo)** **($200.-Up)**
Everything boldly struck, the obverse with a full wire edge. Nice, light toning, very few surface marks. There is a scrape on the neck and a small edge nick at 5:30 obverse. As a result the piece is slightly bent. An incredible coin, even with its impairment worth the full Unc. price.

2796 **1866. 10 Centimos.** Y. 3. **Rare date. Fine.** **($50.-Up)**
C. C. prices at 6,000 Pesetas.

2797 **1867. 10 Centimos.** Y. 3. **Fine.** **($30.-Up)**

2803 **1881. 50 Centavos.** Y. 11. **Unc.** **($100.-Up)**
Type similar to last. Hardly any bag marks, and would be quite choice if the toning were attractive. There are also three fine scratches behind the head, almost completely obscured by the toning. Scarce condition for any date other than 1885.

2804 **1885. 10, 20 and 50 Centimos.** Y. 9-11. **AU, XF and XF. 3 Pcs.** **($25.-Up)**

UNITED STATES PROTECTORATE

2813 **1903. Uncirculated Set. ½ Centavo through Peso. Unc. 7 Pcs.** **($100.-Up)**
Possibly a special mint set. None of the minor coins show any bagmarks and were obviously protected after striking. The Peso is a Borderline Unc. and may have been added to the set. The Five Centavos is slightly mishandled. The other pieces are extremely choice, the 10, 20 and 50 Centavos being nearly MS70. An unusual and spectacular set.

2814 **1903-29. 10 Centavos.** A choice starter set, **including a 1906 (500 minted).** 8 different dates. **Choice AU to Proof.** **($110.-Up)**

2827 **1906-S. Peso.** Y. 21. The rarest 20th century Philippines coin. **Unc. (Photo)** **($300.-Up)**
Standing female figure representing "Filipinas"/Mayon volcano in background/U.S. arms. The somewhat cloudy toning on this piece makes us suspect it of having been lightly cleaned at some time. There are two small spots, probably removable, below the "ES" of "PESO." **Rarely offered**. This could go well over estimate.

2828 **1908-1910. Choice One Centavo** pieces. Y. 15. **Unc. 3 Pcs.** **($50.-Up)**
(1). **1908-S. Unc.** with **full, blazing lustre.** (2). **1910-S. Unc.,** nearly full brilliance. (3). **1911-S. Unc., full original color,** although subdued in brilliance.

Very light trace of handling.

2835 **1912-S. Peso.** Y. 25. **Unc.** **($50.-Up)**

COMMONWEALTH

2836 **1936. 50 Centavos.** Y. 26. **Choice Unc.** **($60.-Up)**
Somewhat prooflike, nice light toning. Facing bust of Murphy (U.S. Governor General) and Quezon (President of the Philippines)/Eagle over Philippines arms. This commemorates the establishment of the Commonwealth of the Philippines.

2837 **1936. Commemorative Peso.** Y. 27. "Roosevelt and Quezon." **Choice Unc.** **($100.-Up)**
Nicely toned especially the obverse. **10,000 mintage,** a third of which was dumped in the ocean (to prevent their confiscation by Japan). One of the few U.S. coins to portray a living person, and the **only piece with a living president**. A much more important coin than most commemorative halves.

2838 **1936. Peso.** Y. 28. "Murphy and Quezon." **Choice Unc.** **($100.-Up)**
The reverse nearly perfect. Lovely blue toning.

2839 **1936. Commemorative set** of the **two Pesos** and the **50 Centavos.** Y. 27, 28, 26. **Unc. 3 Pcs.** **($250.-Up)**
The Pesos are very nice Unc.'s, almost the equals of the superb pieces offered above. The 50 Centavo is nice, but an average Unc. for the issue.

PHILIPPINES PROOF SETS

2840 **1903. Proof set. ½, 1, 5, 10, 20, 50 centavos, Peso.** Y. 14-16, 18-21. **7 Pcs.** **($150.-Up)**
Each piece is hairlined. The 5 Centavo shows a faint fingerprint. The ½, 10 and 50 Centavos are nicked. The three highest values each have one tiny spot. These should bring at least 50% more than average quality Uncirculated coins.

2841 **1903. Proof set. ½ Centavo through Peso. A nice set. 7 Pcs.** **($150.-Up)**
Very minor spots on the bronzes. The 5 Centavos is a bit smudged. The silver pieces are all nice despite very light hairlines; the Peso can be called "choice Proof." Except for the "nickel", this set shows more beautiful colors than a rainbow.

2842 **1906. Proof set. Each coin is a proof-only date!** Furthermore, this is a **choice set. 7 Pcs.** **($350.-Up)**
The 20 Centavos and Peso are **perfect** (MS70). The 10 and 50 Centavos each have a tiny contact mark on the figure, the reverses being perfect. The Centavo has a "microscopic" abrasion in the right reverse field, the obverse being perfect, the color is a lovely gold and lavender. The 5 Centavo has some spotting on the reverse, but has nice light gold and blue toning. The ½ Centavo is a beautiful gold color and has some trivial spotting. We must note that proof standards in the mint were somewhat relaxed, the polishing of dies and planchets not being as careful as on regular U.S. coins, but the preservation is indeed exceptional, there being **not one distinguishable hairline.** A much inferior set brought $410 in our June, '77 sale (lot 1454).

2843 **1906. Proof set.** Another. **7 Pcs.** **($350.-Up)**
Not quite as nice as the last. Although the silver pieces are beautifully preserved, the imperfections of their manufacture reduce each piece to about MS65. The 5 Centavos is very lightly spotted as is the 1 Centavo. The Half Centavo is very nice.

2844 **1908. Proof Set. ½, 1, 5 Centavos** as above. Y. 14-16. **10, 20, 50 Centavos. Peso.** Size and fineness reduced from 1903-6 issues. Y. 22-25. **Each coin a proof-only date!** Also, the only proofs made of the reduced-size silver coins. **Total set mintage only 500, with few surviving. 7 Pcs.** **($350.-Up)**
Krause price $500 ($530 if broken up). The Peso and 50 Centavos are nearly perfect, the 20 and 10 Centavos are exactly as they left the dies. The 5 Centavos has some light spotting, but is really nice for this denomination, which always seems to come worse than the others. The Centavo and Half Centavo are brilliant but spotted, as if flicked with a bad fountain pen. The Peso and 50 Centavos are quite choice but their manufacture was not up to proof standards. The 10 Centavos actually shows planchet porosity on the entire reverse surface. The mint had 1908 sets available until the late 30's. With the issuance of U.S. proof sets, they were finally able to clear out the Philippines left-overs to a new generation of collectors. Apparently they were not stored carefully during their 30 years in Philadelphia.

2845 **1908. Proof set.** As last. **7 Pcs.** **($350.-Up)**
About the same quality as the above set. The Peso and 50 Centavos are more defective. They show the identical hairlines as on the above set, proving the dies and not the coins were hairlined. The Peso has a long scratch in the right obverse field almost like a hairline. The other silvers show some porosity in the planchets. All the coins are unhairlined and all are brilliant, except that the 5 Centavos has some clouding in part of the fields and the bronze pieces are toned in the fields.

2846 **1908. Proof set.** A third. **7 Pcs.** **($350.-Up)**
The ½C and the 1C are brilliant and attractively toned, with the deepest toning on the ½C and with some light spotting on the obv. of 1C; the 5C brilliant with some yellowish gold toning and scattered light spotting; the 10C is brilliant and yet is lightly hairlined and has been dipped for removal of toning; the 20C is brilliant and also has some hairlines; the 50C and Peso are brilliant with hairlines which are more noticeable than those of the 20C.

PHILIPPINES PROOFS
(INDIVIDUALLY AND IN GROUPS)

2847 **1903-4. Odd lot of Proofs. 7 Pcs.** **($150.-Up)**
(1-2). **1903. 50 Centavos.** Both with some light handling, one heavily toned. (3-5). **1903. 20 Centavos.** Two nice proofs, and one with light spots. (6). **1903. 10 Centavos.** Heavily toned. (7). **1904. 5 Centavos.** Spots. Krause value $220, these worth a little less.

2848 **1903. Peso.** Y. 21. **Choice Proof.** **($100.-Up)**
Had this coin not been minted, but, instead, painted by Titian, it still could not show more beautiful colors.

2849 **1903. Peso.** Y. 21. **Proof.** **($75.-Up)**
A number of tiny abrasions, probably from contact with other coins, but no hairlining, handling, cleaning or clouding. Nice, light toning and, overall, attractive.

2850 **1903. Peso.** Y. 21. **Proof.** **($70.-Up)**
Some handling on the obverse. The reverse is more choice. Deeply and richly toned.

2851 **1904. Peso.** Y. 21. **Impaired Proof.** **($100.-Up)**
Rather slight friction on the figure, the fields quite hairlined. Nice toning.

2852 **1905. 5 Centavos.** Y. 16. **Rare. Nice Proof.** **($50.-Up)**
Proof-only date, 471 minted.

2853 **1905. 10c.** Y. 18. **Proof.** **($60.-Up)**
Proof-only date, 471 minted. Gorgeous toning, several shades of purple. An underrated rarity.

2854 **1905. 20 Centavos.** Y. 19. **Choice Proof.** **($80.-Up)**
Gorgeous multi-colored toning. **Proof-only date, mintage 471,** undervalued.

2855 **1905. 50 Centavos.** Y. 20. **Choice Proof.** **($110.-Up)**
Proof-only date, 471 minted.

2856 **1905. 50c.** Y. 20. **Hairlined Proof.** **($85.-Up)**
Proof-only date, 471 minted.

2857 **1905. Peso.** Y. 21. **GEM PROOF. (Photo)** **($250.-Up)**
Proof-only date, 471 minted. Not up to 1903-4 proof standards, being less reflective and seeming to show hairlines, but, except for the attractive toning, this one is just as it left the dies. MS70. Perfecto.

2858 **1905. Peso.** Y. 21. **Slightly impaired Proof.** **($150.-Up)**

2859 **1906. 5 Centavos.** Y. 16. **Rare. Nice Proof.** **($55.-Up)**
Proof-only date, 500 minted.

2860 **1906. 5 Centavos.** Y. 16. **Rare. Nice Proof.** **($55.-Up)**

2861 **1906. 5 Centavos.** Y. 16. **Proof.** **($50.-Up)**
Proof-only date, 500 minted. Some spotting, almost all of it on the reverse, the piece a gem elsewhere.

2862 **1906. 5 Centavos.** Y. 16. **Proof only date. 3 Pcs.** **($120.-Up)**
All are choice Proofs except for rather light obverse spotting. The last four lots should help one appreciate just how few complete Philippines proof sets remain intact.

2863 **1906. 10 Centavos.** Y. 18. **Choice Proof.** **($65.-Up)**
Proof-only date, 500 minted. Lovely purple-blue toning. Not fully reflective (as made), similar to the 1905 Peso offered above.

2864 **1906. 10 Centavos.** Y. 18. **Nice Proof.** **($60.-Up)**

2865 **1906. 10 Centavos.** Y. 18. **Proof.** **($50.-Up)**
Some hairlines.

2866 **1906. 20 Centavos.** Y. 19. **Very choice Proof.** **($80.-Up)**
Proof-only date, 500 minted. Nicely toned, normal reflective fields.

2867 **1906. 20 Centavos.** Y. 19. **Proof.** **($60.-Up)**
Hairlines.

ISLE OF CULION LEPROSARIUM COINAGE

2868 **1913-1922. Leprosarium coinage.** Four different types. **($50.-Up)**
(1). **1922. Peso.** KM 16. Counterstamped with "PM" monogram. **Nice XF.** (2). **1922. 20 Centavos.** KM 13. Same counterstamp. **Nice XF.** (3). **1913. 10 Centavos.** KM 8. **Fine+.** (4). **1913. 1 Centavo.** KM 2. **Fine.** (Krause $20). Leper coins, being special coins as opposed to true tokens, have become very popular. The first three pieces have a combined mintage of under 25,000, hardly enough to meet the increased demands.

Crowned bust of John Casimir, 1648-68/Lions supporting arms, a floral arrangement above. 24.5 mm. Slightly bent (not unusual for such a thin gold coin). A fine example of Polish regal coinage. Extremely scarce, lists at $625 in Friedberg.

2886 **1662. ¼ Taler** (or Orte). Czapski type of 2176. **VF.** **($75.-100)**
Same general type as above. Crowned bust of John Casimir/Eagle over shield, inscription, etc. Uneven planchet, common to these silver coins. Nicely toned and very scarce in this high grade.

2887 **1780. Duch of Courland. Taler.** Cr. 23, Dav. 1624. **Unc. (Photo)** **($400.-Up)**
Bust of Duke Peter Biron (1769-95) Crowned arms of Poland and Lithuania. Nicely toned and very rare in this superior grade. PORTUGAL

2893 **N.D. (c. 1481-90). Gold Cruzado** of John II, **1481-95.** F-16. **VF. (Photo)** **($400.-Up)**
Crowned arms, +IOHNES:II:R:PLET:A:D:GVINNE./Cross in geometric design, same inscription. "ET:A:D:GVINEE: refers to the overseas territorial claims made for Portugal by her early explorers. This is the oldest Portuguese gold coin that can be had for a reasonable price.

2894 **N.D. (c. 1580-1598). Tostao.** Struck during the Spanish occupation. C. C. 3238, Type of Vicenti 1053-57. A rare variety of a scarce type. **F/VF. (Photo)** **($300.-Up)**
Philip II, in Portugal 1850-98. Obverse: Crowned Portuguese arms separating "L-B" (Lisbon Mint). "PHILIPVS .D:G. REX.PORTVGALIA." Reverse: Cross, "IN HOC.SIGNO VINCES." This variety (Philipus in lieu of the correct Philippus) catalogs 29,000 Pesetas in C. C. The type catalogs a minimum of 11,500 Pesetas (20,000 in Vicenti). The coin has a weak spot and a small edge nick, and the planchet is undersized, but it is still **much better than the C. C. photo.** (Vicenti has only line drawings).

2895 **1683 III Reis.** Eklund 30. **Rare. Fine. (Photo)** **(——)**
Peter (II) as Prince Regent, 1667-83. Obverse: Crowned, ornate shield of arms. "PETRVS.D.G.P.PORTVGALIAE." Reverse: Value, a rosette above, below and to the sides, all in a cartouche. ".ANNO SEXTO DECIMO REGIMINIS SVI.1683" Lightly cleaned and very lightly scratched. A moderately heavy dent at 2:00 obverse.

Crown over LXXX (= 100 Reis!) Plain crown with rosettes in angles (Lisbon Mint). Planchet adjustments, but still top condition for this coin.

2897 **1690. 480 Reis.** Dav. 4390. **About Fine.** **($50.-Up)**
Peter II, 1667-1706. As King, 1683-1706. Crowned shield of arms/Jerusalem cross, rosettes in angles.

2898 **1699-1703. 1½, III, V and X Reis.** Eklund 46-49. **VG to VF. 6 Pcs.** **($40.-Up)**

2899 **1736. Gold 400 Reis** (or Cruzado) Fr. 79. **VF/XF. ($60.-75.)**
Cross/Crown over inscription of John V.

2900 **1741. Gold 400 Reis.** or Cruzado. Fr. 79. **XF.** **($60.-75.)**
Cross/Crown over inscription of King John V (1706-50).

2901 **"1749." X Reis** of Joseph I, 1750-77. Cr. 3a. Not in Eklund or Neumann. **Very scarce. VG.** **($30.-Up)**
Appears to be a contemporary counterfeit. It is smaller and lighter than other X Reis, and there are minor stylistic differences. It is struck and the dies are skilltully engraved. Small edge nicks, porous, slightly dark surface.

2902 **1774. Gold 4 Escudos.** Fr. 80. **Nearly XF. (Photo)** **($300.-350.)**
Bewigged portrait of Joseph I/Crowned arms. Very scarce. Light adjustment marks on rev.

2903 **1782. V. Reis.** Cr. 18. **Unc.** **($50.-Up)**
Type as last. Light brown with 10% red. Very scarce condition for this early Portuguese copper.

2904 **1797. 480 Reis.** Cr. 40. **VF+.** **($60.-Up)**
Maria I (alone), 1786-99. Crowned arms Jerusalem cross, rosettes in angles, "IN HOC SIGNO VINCES." Floral edge. Although the coin bears the denomination "400", Portuguese silver and gold of the period were officially valued at 20% higher than the values they bore.

2905 **1812. 40 Reis.** Cr. 52. **AU.** **($60.-Up)**
Nicely struck on a thick (31.6gms.), brass, cast planchet. **Original mint color and probably Unc.,** the slight porosity form the planchet casting making it difficult to tell. This type is the first Portuguese "copper" with a portrait.

2906 **1814. V. Reis.** Cr. 49c. **Struck over the error, Cr. 49d. Unc.** **(——)**
John, Prince Regent, 1799-1816. In 1812 some V Reis were struck with the obverse dies of the Maria type used from 1791-99 (Cr. 33). This variety (Cr. 49d) is rare. The present coin is an example of this error, recoined with proper dies two years later. **Over one-third original mint red** remains, there being a small spot on the obverse, a tiny reverse spot, and some fingerprints on the reverse that were on the undertype at the time of striking.

2907 **1820. X Reis.** Cr. 67. **Rare date. Choice Brown Unc.** **($100.-Up)**
John VI, 1816-22. Arms on crowned globe Date and value in wreath. Krause, ridiculously low on Portugal prices this at $30 XF. Slight porousity and about half a millimeter off-center. A prize!

2908 **1820. 40 Reis.** Cr. 68. **AU.** **($30.-Up)**
Bust Arms on crowned globe, "PUBLICAE UTILITATI." Thick cast bronze planchet, deep bronze color. Soight cabinet friction on obverse, no signs of circulation. Moderate porosity but no flaws.

Please note that there are no buyers' charges in NASCA's sales of Foreign Coins.

2909 **1824. Gold 4 Escudos.** Cr. 80a. Fr. 107. **Mintage only 1,553. AU/Unc. (Photo) ($750.-Up)**

Draped, laureate bust of John VI, legend "JOANNE-S.VI.D.G.PORT. BRASIL" etc., date below bust. Crowned arms in wreath, no legend. The inclusion of Brazil among the King's titles is ironic, Brazil having gained independence in 1822. The wear on the obverse is apparently cabinet friction and the piece is in full brilliance.

The rarity of this gold coin, related to the Americas, is largely unappreciated; **this coin could be considered a "sleeper."**

2910 **1829. 40 Reis.** Cr. 90. **Very Choice Unc. ($100.-Up)**

Michael I, 1828-34. Crowned arms/Value in wreath. Craig prices this type at $25 VG-F. This piece is nearly as it left the dies. The obverse inscription is **slightly** weak, due to the inevitable porousity in the cast planchet, and the coin is less than a millimeter off-center. Another Wayte Raymond delight!

2911 **1829. 240 Reis.** Cr. 95. **Very scarce type. VF or better. ($60.-Up)**

Michael I, 18328-34. Crowned arms/cross.

2912 **1830. X Reis.** Cr. 100. **Pretender coins. Choice AU and XF. 2 Pcs. ($40.-Up)**

Struck in England for Maria II, 1828-53, who did not take possession of the throne until 1834. While the insurrectionist Michael I, 1828-34, held power, Maria set up court on Terceira Island in the Azores, where these coins were used.

2913 **1831. X Reis.** Cr. 89. **Choice Unc. ($50.-Up)**

Similar to last. Predominantly red. Some porousity with a **tiny** edge flaw at 3:30 obverse. Craig prices at $12.00 VG-F.

2914 **1833. 40 Reis.** Cr. 90. **Bold AU. ($40.-Up)**

2915 **1838/6. 500 Reis.** Cr. 107a. **Rare date. Abt. XF. (Photo) ($200.-Up)**

Diademed bust of Maria II, 1834-53/Crowned and mantled arms. **The overdate is unrecorded** to our knowledge. The date lists $260 in XF in Krause, but we feel Krause is very low on Portugal prices.

2916 **1851. Gold 1000 Reis.** Fr. 123, Schl. 64, **AU. ($100.-Up)**

Head of Mary II/Crowned arms. One-year type. Mintage only 12,099 and few survivors in this superior grade.

Obverse: Crowned shield of arms dividing "G-A" (for "Goa Mint"). Reverse: Standing figure of St. Thomas dividing "S-I" and "16-49". A wide border of denticles on each side. In point of wear XF or better. No impairments, and no planchet impertections worth describing. The borders are partly weak-struck. **As fine an example as is likely to exist.** Grogan did not have a coin of this type with a full date. 25mm., 11.00gms.

2932 **1650. Xerafim.** Not in Grogan (but similar to the 1650 ½ Xeratim there illustrated). **Very rare. XF,** nearly all bold. **(Photo) ($250.-Up)**

Obverse as last. Reverse: Cross with digits of the date in the angles. That a better example of this rarity exists is only a bare possibility. 25mm., 10.57gms.

This is surely worth 2-3 times as much.

PUERTO RICO

Krause-Mishler #10. A rare "cut and counterstamped" crown not very appreciated until the Ray Byrne sale, in part because its rarity made it unfamiliar to collectors and dealers.

(1). **Hacienda Discordia. 1898. 2 Centavos.** Gould and Higgie #232. XF. (2). **E. Franceschi. N.D. 1 Centavo.** G. H. 419 (the cataloguer feels this piece, 31mm. brass, is too large to be a 1 Centavo and that it may be an Almud, Peseta, Real, etc.). **VF,** pitted, edge nick. (3). **Tomas Quinones. N. D. Storecard.** GH. 435. **XF,** some scratches, heavy corrosion. (4). **S. Sanchez. N. D. Storecard.**

AN UNUSUAL OFFERING OF PETER III, 1762 COPPER COINS

2966 **1762. 4 Kopecks.** Cr. 43. **XF. (Photo)** **($125.-Up)**
From the same collection as the marvelous group of Siberian 5 Kopecks,to follow in this catalog. The surfaces are smooth and vaguely glossy, milk chocolate in color. Apparently not overstruck on an earlier 2 Kopeck, as is common. This piece appears to be a variety of Brekke # 10, differing in that the edge is checkered. Large date. Three letters are slightly weak, because of roughness in the planchet. Peter ruled only a few months before being deposed by his wife, who became Catherine II (the Great), ruling 1762-96. Peter died mysteriously in late 1762. Catherine became the most powerful woman of her time, an accomplished ruler, murderess and horsewoman.

2967 **1762. 4 Kopecks.** Cr. 43. **XF.** **($70.-Up)**
Apparently overstruck on a 2 Kopecks, Cr. 8. The entire surface of the under coin was lightly pitted. A spot on the edge, and a museum number on the obverse. Similar to last, with "17" much smaller than "62".

2968 **1762. 10 Kopecks.** Cr. 44. **XF. (Photo)** **($225.-Up)**
A variety with no periods in the legend (Neumann 1735, Brekke 15). Slightest traces of mint red. Slightly soft strike, as are nearly all. Moderate planchet porousity and a bit of dirt on the obverse. Some small rim nicks. **Not overstruck on an earlier coin.** A choice VF brought $350 in Schulman's October 1974 auction. From the Siberian collection mentioned above.

2969 **1762. 10 Kopecks.** Cr. 44. **VF.** **($150.-Up)**
As last, although from a different pair of dies, the letters being thinner and not as well cut. Also not an overstrike. Despite the active coinage of this type, as indicated by four die pairs in this sale, these are very scarce. As most were recoined into 5 Kopecks by Catherine II. An average strike for type except weaker in the lower right reverse. Some small oxidation spots and a few small rim nicks.

2970 **1762. 10 Kopecks.** Cr. 44. **XF. (Photo)** **($275.-Up)**
Sharply struck! The variety with periods before and after "10" and "1762". (Neuman 1736). The undertype is well flattened-out by the boldness of the strike, although the "759" of the old date is clear. Three small edge nicks. A tiny bit off center. There appears to be a dot "between" "17" and "62", which would make this Brekke #17.

2971 **1762. 10 Kopecks.** Cr. 44. **Fine.** **($75.-Up)**
Similar to last, slightly different dies. The undertype bold and obtrusive. The obverse has a rough surface and an 8mm. scratch in the field. From the "Siberian" collection previously mentioned.

2972 **1762. 10 Kopecks.** Cr. 44. **VF.** **($100.-Up)**
As last, except that the period between "17" and "62" is distinct and level with the middle of the digits. Very nice edges, only one small and one tiny edge nick, both on the obverse. The surfaces are pitted and suggest the piece was found. Overall, still worth the price of an "About Fine" example. The under coin, not particularly obtrusive (the overstrike is complete), is a 5 Kopecks of 1759. Also from the "Siberian" collection.

2973 **1762. 10 Kopecks.** Cr. 44. **VF.** **($40.-Up)**
Same dies as last. The under coin is a 1758 5 Kopeck, the reverse of the old coin being just as clear as the obverse of the new coin. The new reverse is completely struck. Only one small edge nick (on the reverse). There is a bad notch cut into the edge at 6:00. Between this and the garbled obverse, the coin should be knocked down perhaps as much as three grades.

2974 **1762-CNB/HK. Rouble.** Dav. 1682. **Quite scarce. VF. (Photo)** **($225.-Up)**
Peter III, 1762. Deposed by his wife, Catherine the Great, Peter ruled for only a few months. All his coins are scarce and gaining in popularity. There is some planchet roughness apparent on the obverse, and the centers are weakly struck.

2975 **1762, 1913. Pair of Roubles. Abt. G., Unc.** **($75.-Up)**
(1) **1762-CNB.** Cr. 67. First year of Catherine the Great. **Abt. G.**
(2) **1613-1913.** Romanov Commemorative. Y. 70. **Unc.**

2976 **1766-CNB. Gold 10 Roubles.** Cr. 79a, Fr. 94. **F/VG.** **($175.-Up)**
Catherine II (The Great), 1762-96. Bust/Five shields forming a cross. Surfaces badly damaged from jewelry use. Trace of removed loop. Friedberg $850.

2977 **1775-CNB. Rouble.** Dav. 1684. **F-VF.** **($75.-Up)**
Catherine II, 1762-96. Type similar to previous reigns. A planchet flaw and some light scratching in the right obverse field.

2978 **1784-CNB/MM. Polupoltinnik.** Cr. 65. VG/F. **1771MMA. 15 Kopeks.** Cr. 62. **About Fine. 2 Pcs.** **($40.-Up)**
The first with numerous light scratches, the second with the date very weakly struck. Both from the "Siberian" collection (ironically at $2.00 and $1.00).

2979 **1785-CNB/RA. Broad Rouble.** Dv. 1686. **VF.** **($70.-Up)**
Type as above except the portrait is older and the coin is broader (39mm.). Some light scratches and a generally soft strike knock a grade off the coin. First year of the final type of Catherine II.

2980 **1798-CM/Mb. 5 Kopecks.** (Silver) CN96. **Unc.** **($125.-Up)**
Crowned monogram of Paul I, 1796-1801/Value and date over branches. Krause price $75 in XF.

2981 **1802-EM. 2 Kopecks.** Cr. 114. **Scarce type. Abt. XF.** **($30.-Up)**
Alexander I, 1801-25. Eagle/Value, date and mintmark. Designs enclosed in rings of vie concentric circles with two "bosses." Weak on "E" in reverse center, four minor edge nicks.

2982 **1802-EM.** Huge copper **5 Kopecks.** Cr. 115. **A novodel. Unc. almost full red. (Photo)** **($225.-Up)**
Brekke 104. Estimated value $250 in AU. Struck for the Industrial Fair of 1870.

2983 **1804. Pattern Rouble. Bronzed Proof. (Photo)** **(——)**
By Kuchler. Obverse: Bust of Alexander I, 1801-25. Latin legend. Reverse: Cross and date. Plain edge. 41mm. 23.54gms. Beautifully engraved. Alexander's coins did not have portraits.

2984 **1830-EM. 2 Kopecks.** Cr. 139. **Quite rare. Choice Red to Brilliant Unc. (Photo)** **($250.-Up)**
All 1830 coins of this type, in all four copper denominations, are rare. Brekke #144, described as a novodel from the Industrial Fair of 1870.

2985 **1842. 3 Roubles.** Silver strke of the platinum coin. **Very Rare.** Fr. 123, Cr. 177. **Prooflike and very choice. (Photo)** **($300.-Up)**
Imperial eagle/Inscription. Slightly dark but attractive toning. Some very light hairlines on the reverse, otherwise the coin is perfect in every respect. Reeded edge. Because the edge is not extremely sharp and the fields are not square, we are not describing this coin as a proof, although it could not have been a currency strike. Much rarer than the regular strike in platinum. 4.96gms.

2986 **1845. Rouble.** Dav. 283. Cr. 168. **XF+.** **($40.-60.)**
Crowned double eagle and inscription of Czar Nicholas I Crown over value and date within wreath. St. Petersburg Mint.

2987 **1857. 10 Kopecks.** Y. 14. **Rare. Proof.** **($125.-Up)**

2988 **1857/6. 20 Kopecks.** Y. 15. **Rare. Very Choice Proof. (Photo)** **($200.-Up)**
The obverse is perfect, magnificently struck and toned. The overdate may be unrecorded.

2989 **1863 "EM". Pattern 2 Kopecks.** Brekke 142. **Rare. Choice Brilliant Proof. (Photo)** **($275.-Up)**
Pattern struck in Brussels. Several variations from the regular-issue design. Brekke's price estimate of $200 seems too low, as even the relatively common 1871 patterns bring $150. Only the most minor spotting keeps this coin from the gem class.

2990 **1863. Pattern 2 Kopecks.** Brekke 143. As last, only **struck in nickel. Rare. Brilliant Proof. (Photo)** **($250.-Up)**
Not as nice as the last — an average quality proof coin.

2991 **1866. 2 Kopecks.** Y. 4A. **Rare. Proof.** **($200.-Up)**
Red to Brilliant. Quite choice, save a few tiny reverse spots.

2992 **1869. Rouble.** Y. 25. Dav. 289. **Unc.** **($60.-Up)**

2993 **1893-1896.** Pair of **Scarce 25 Kopecks. XF** and **AU. 2 Pcs.** **($70.-Up)**

2994 **1894. 50 Kopecks.** Y. 45. **Scarce type. Unc.** **($50.-Up)**
Bust of Alexander III, 1881-94/eagle. Slight cabinet friction on obverse. Harmlessly dipped, the coin being prooflike enough that dipping did not dim its lustre.

2995 **1894. Ruble.** Dav. 292, Y. 46. **VF.** **($40.-60.)**
Czar Alexander III/Crowned double eagle with arms. Very scarce, mintage only 3007. Nice golden rainbow toning.

2996 **1895. 25 Kopecks.** Y. 57. **Scarce type. Unc.** **($40.-Up)**
Bust of Nicholas II, 1894-1917/Eagle.

2997 **1896-CN6. 3 Kopecks.** Copper. Y. 11, Brekke 73. **Red Proof.** **($40.-60.)**
Crowned double eagle/Value within circle. Milled edge. Trace of fingerprint on rev. An outstanding specimen of Russian proof coinage.

2998 **1914. 50 Kopecks.** Y. 58. **Prooflike.** **($50.-Up)**
Choice, the reverse virtual perfection. The last half Rouble of the Russian Empire.

2999 **1921. 15, 20 and 50 Kopecks.** Y. 81-83. **Choice Unc. ($70.-Up)**
The first Soviet coins. Not released until 1924. An exceptionally choice trio, worth perhaps double their ordinary value in Unc. The 15 and 50 Kopecks are beautifully toned. The 20 Kopecks is merely prooflike.

3000 **1923. 15 Kopecks.** Y. 81. **Very Choice Proof.** **($80.-Up)**
The proofs from Russia are rare, and this one is so nice.

3001 **1923. 20 Kopecks.** Y. 82. **Proof.** **($80.-Up)**
Choice but for a small tarnish spot (which could possibly be removed by dipping) on obverse.

3002 **1924. 5 Kopecks.** Bronze. Y. 79. **Brilliant Red Unc. ($40.-50.)**
Hammer and sickle within wreath/Value, date within wreath. Redish mint lustre.

3003 **N. D. (1940-1945). WW-2. Silver Battlefield Medal. XF.** **($25.-Up)**
Inscription over crossed sword and rifle. Uniface. Looped.

RUSSIAN TERRITORIES

3004 **(1777) A.H. 1191. Crimea.** Large bronze **Kyrmis** (=5 Kopecks). Cr. 138. **XF.** **($100.-Up)**
Native inscriptions obverse and reverse. 44mm. 80% of the coin is boldly struck, the balance is weak or very weak. There is a single, small edge nick and a small edge clip. Brekke's price of $100 in VF seems a bit low to us. Coins from this location always sell immediately in spite of rising prices.

3005 **1810. Georgia. 10 Dinars** (=2 Puli). Cr. 82. **F-VF. ($40.-Up)**
Only 99,000 coins of this type were minted, dated 1804-10. The design is chiefly native script, with a castle and floral sprays on obverse. Brekke 17, $75 VF.

3006 **(c. 1804). Georgia.** Set of three Silver Pcs. **3 Pcs. ($40.-65.)**
(1). **100 Dinar.** Cr. 84. **VF,** obv. pin scratches. (2). **200 Dinar.** Cr. 85. **VF.** (3). **400 Dinar.** Cr. 86. **EF/AU, iridescent toning.** All similar designs. Crown over inscription/Inscription.

3007 **1761. VI Groszy. East Prussia (Duchy in Poland).** Cr. 45. Russian Occupation Issue. XF. **(Photo)** **($100.-Up)**
Bust of Elizabeth II, 1741062. In East Prussia 1759-62. Reverse: crowned eagle, a shield with "VI" on breast, date below.

3008 **1772. Para. Moldavia and Wallachia.** Cr. 2. **VF. ($75.-Up)**
Combined arms/Value in square. Brekke #10. From the "Siberian" collection mentioned elsewhere in this sale.

3009 **1773. Moldavia and Wallachia. 2 Paras.** Cr. 3. **Fine.** **($30.-Up)**
Similar to last. Brekke #18, variety with close date. A nice Fine for this normally very crude coin. From the "Siberian" collection, marked $1.00 — the same as the Peter III 1762 10 Kopecks, undervalued.

SIBERIA

COMPLETE DATE SET OF SIBERIAN 5 KOPECKS

Perhaps nothing in this sale demonstrates as well as the next 17 lots the unique nature of the present offering. A stock like Wayte Raymond's is a thing of the past. The following dates were obtained by Mr. Raymond from a single collection (prices on the collector's envelopes in parentheses. 1767 ($1.00), 1770 (.75), 1771 (.25), 1774 (—), 1775 (—), 1776 (—), 1777 (.25), 1778 (.25), 1779 (.75), 1780 (marked "Rare", $5.00). The Unc. 1773 offered below was from this collection (marked $0.25). The 1766 is accompanied by an old tag marked "very rare", $5.00. As of this writing, we have just received B. F. Brekke's "The Copper Coinage of Imperial Russia". The publication of this work will probably spark a few price rises, especially for rare dates and varieties. We advise the serious collector against relying too heavily on our (probably conservative) estimates.

3010 **1766. 5 Kopecks.** First year of issue. Brekke 455, termed **"Very Rare."** Actually a different type from succeeding issues, as it has a **raised lettered edge** (not reeded). This subtype is not noted by Craig or Eklund. It occurs only in this year and on a very rare variety of 1767. The piece is **Fine,** with a 15mm. flan split. Some metal has been shaved off by a contemporary coin clipper. **($200.-Up)**

3011 **1767. 5 Kopecks.** Lettered edge. **Very Rare.** Brekke 458. **Unc. (Photo)** **($500.-Up)**
Identical to last except for date. The collector's tag indicates that this was acquired with the preceding 1706, and is marked "Ex Rare — $25.00." Although the coin is Unc., it has light even patina, and should be valued as XF-AU. There is a tiny edge nick at 9:30 reverse and a serious lamination at 2:00 reverse. The lettered edge is complete and quite nice. This outstanding coin may top our estimate with something to spare.

3012 **1767. 5 Kopecks.** Brekke 459 **("Rare"). VF.** **($100.-Up)**
Speckled with oxidation, a flan split, etc., overall worth the price of a nice VG.

3013 **1768. 5 Kopecks.** Brekke 462 **("Scarce.") VF.** **($80.-Up)**
Minor planchet porosity.

3014 **1769. 5 Kopecks.** Brekke 464. **VF.** **($70.-Up)**
Weak on the crowns. A really trivial edge flaw (as made) at 7:00 obverse.

3015 **1770. 5 Kopecks.** Brekke 466. **Fine.** **($40.-Up)**
Not the least remarkable teature ot this collection is that the usual edge nicks are not present.

3016 **1771. 5 Kopecks.** Brekke 468. **Fine.** **($30.-Up)**
The reverse perhaps **Fine+**. The obverse with an edge flaw at 9:00, a small edge nick at 6:00, and considerable weakness in the legend.

3017 **1772. 5 Kopecks.** Brekke 470. **Abt. XF.** **($60.-Up)**
A smattering ot tiny oxidation spots, easily removed. A flan flaw at 9:00 obverse, the first third of the legend is weak, and there is a museum number showing dimly in the left reverse field.

3018 **1773. 5 Kopecks.** Cr. 5. Brekke 472. **Choice Unc. Rare condition. (Photo)** **($300.-Up)**
Crowned monogram in wreath/Crowned oval shield with date and value, supported by two sables. Except for the natural toning and the barest trace of obverse cabinet friction, this piece is exactly as it left the dies. Not a single contact mark or fingerprint. Glossy brown color with some red. A near-perfect strike, a bit off-center on the obverse, affecting four letters. There is a small darker patch behind the left sable's head, as struck, due to a planchet impurity. There is a planchet flaw from the right sable's foot to the edge, which is nonetheless complete. Otherwise, this coin is perfect. The special coinage for Siberia was authorized by Russia because the copper contained gold which could not be refined by the Kolyvan Mint. Thus coins of half weight were permitted, to allow for the trace gold content, necessitating a distinctive design. Later the mint's refining capabilities were augmented, and Kolyvan struck copper coins of the regular Russian types.
With the exception of the rare Polushka, all Siberian coins are of similar type.

3019 **1773. 5 Kopecks.** Brekke 472. **VF+.** **($40.-Up)**
Some minor surface nicks. The planchet is badly flawed from 3:00 to 5:00 obverse, and correspondingly on the reverse. There is an incuse "R" stamped near the rim at 5:30 reverse and a possible "M" stamped at 4:30.

3020 **1774. 5 Kopecks.** Brekke 474. **VF+.** **($60.-Up)**
Some trifling surface dirt — removable — and a tiny edge nick.

3021 **1775. 5 Kopecks.** Brekke 476. **XF/VF+.** **($50.-Up)**
The right reverse field scratched. A very tiny edge nick at 3:00 obv. The shield is worn much more than it should be, with two or three letters/numerals blurred.

3022 **1776. 5 Kopecks.** Brekke 478. **XF.** **($30.-Up)**
Some light edge nicks. There are several **tiny** digs in the surfaces, somebody having used this coin and an ice pick to practice Morse Code.

3023 **1777. 5 Kopecks.** Brekke 480. **VF.** **($55.-Up)**
Perhaps slightly better.

3024 **1778. 5 Kopecks.** Brekke 482. **XF.** **($75.-Up)**
Obverse crown mostly weak. A bit of white oxidation, nearly all of which is loose on the coin and easily removed.

3025 **1779. 5 Kopecks.** Brekke 484. **VF-XF.** **($55.-Up)**
Nice brown surfaces, pleasingly struck on a slightly broader flan. Some loose, encrusted dirt, light brown and easily removed. Three very tiny edge nicks.

3026 **1780. 5 Kopecks.** Brekke 486 **("Rare").** Final year of issue. **XF. (Photo)** **(——)**
Somewhat glossy brown surtaces. Two tritling edge nicks and some minor patina. Brekke's estimate of $150 in VF may be a bit low (this piece is much better than VF, though).

3027 **1767. 10 Kopecks.** Cr. 6, Brekke 498. **VF-XF.** **($150.-Up)**
Scarce date, second year of type. Lightly cleaned, a few very tiny edge nicks. This coin is within a grade of Brekke's plate coin (Brekke prices this at $200 VF).

3028 **1777. 10 Kopecks.** Cr. 6. Brekke 522. **XF.** **($150.-Up)**
A large (45mm.) and extremely popular copper coin.

3029 **(1809). "P" and "SE" counterstamps on a 1789 Cayenne Sou.** Cr. 8, Scholten 1428, Byrne sale lots 1000-1002. **About average condition for type.** **($40.-Up)**

SALVADOR

3030 **1828-F. 4 Reales.** Cr. 18. **VF. (Photo)** **($1,000.-Up)**
Column dividing "4-R"/Spouting volcano over waves. Similar to other early Salvadorian coins. This coin was unknown until Almanzar published two varieties in his recent book on Salvador coins (the other has the value "R-4"). Almanzar writes that he knows of the existence of four pieces. One piece of each type is photographed; he never saw the other two pieces and did not know which variety they were. Why Wayte Raymond was sitting on this piece, we cannot say (he did not publish it in his 1953 edition of "Coins of the World, 19th Century." We also do not know if this is one of the pieces known to Almanzar, or a fifth known specimen. The coin has light blue and gold toning and given the shallow strike, may actually be XF. There are some weak spots particularly the "4" in the denomination, and some airholes on the reverse. The silver content is low, a test cut at 7:00 reverse showing copper color. There is also a scrape on the edge at 8:00 obverse, but otherwise no nicks, scratches or other flaws and the coin is unholed. **FAR** superior to the pieces Almanzar illustrates and **possibly the finest known** by a wide margin.

3031 **1830. 4 Reales.** Cr. 24a-described as "reported." A 1784Mo/FM 4 Reales, **counterstamped with a volcano over 1830, S.-S. at sides** (all within octagon). **Coin F-VF, stamp XF. (Photo)** **(——)**
Craig mentions the existence of this counterstamp in his 2nd edition. In the 3rd edition he catalogs ½, 1, 2 and 8 Reales, counterstamped "Mountain/1839 in incuse square." These are assigned Nos. 21, 22, 23 and 25. He also mentions that the counterstamp is "reported with S-S at sides of mountain." None of these coins are priced or photographed, and we know of no other reference to them. Presumably the 1839 date given is a typographical error. The assignation "Cr. 24a" is our own.

This counterstamp is rare on any coin, being unknown to Funrobert, Guttag, etc. On a 4 Reales, it must be prohibitively rare. Although this coin probably will sell in the $1,500-3,000 range, it is among the halt-dozen rarest and most impressive pieces in this sale.

Please note that there are no buyers' charges in NASCA's sales of Foreign Coins.

3032 **1925. Colon.** Y. 30. **Very Choice Unc. (Photo) ($300.-Up)**
Commemorates the 400th anniversary of the founding of the capital city. Obverse: Accoladed busts of the conquistador Alvarado and President Molina. Reverse: Arms. A piece described as "Borderline Unc., signs of light cleaning.", brought $210 in our June, '77 sale. This should bring a record for this extremely popular, rare (2,000 minted) crown. Lovely light blue, grey and gold toning.

SANTO DOMINGO

3033 **N. D. (c. 1504-1516). 4 Maravedis of Carlos and Johanna, 1504-16. Counterstamped with a key.** Burzio 837, Byrne 1118. **Rare.** Coin **VF** for type, counterstamp **super.** **($75.-Up)**
Crowned monogram divides "F-4"/Crowned pillars divide "S-P." Counterstamped in the center of the reverse. Guttag had 12 different varieties of Maravedis, but none with a counterstamp. Rare and much undervalued. There is a large flan crack not affecting the design.

3034 **N. D. (c. 1506-1516). 4 Maravedis** of Carlos and Johanna. 1506-16. C-C. type 8, #831. Guttag 4630-38. **Choice AU. (Photo)** **($100.-Up)**
An exceptional example! From the H. D. Gibb's collection, with Gibbs' envelope explaining that he got it from the Charles Clapp collection. Although crude, the coin is probably **AU,** with some trifling verdigris on the reverse. Of the 43 letters in the legends, 34 are bold and only two are illegible. Over 2/3 of the outer beading is present. Obverse: A monogram, apparently crossed J's, each crowned. A lis above and below, "F" and "IIII" to left and right (a small "o" above "IIII"). A small dot in the center. All in a beaded circle. "+CAROLVS.ET.IhONNA.RE.ESPS." Reverse: Crowned pillars of Hercules, a tragementary third pillar to the left (**not** the result of double-striking). "S" and "P" to left and right, a large dot above each letter. Three circles below. A small center dot. All in a beaded circle. "+CAROLV-S.ET.(Ih) OANA.REGES.ISP. The legend stops as on obv. Doubtless this is one of the **finest known** of any variety.

3035 **N. D. (1506-1516). 4 Maravedis.** Guttag 4639-41. **XF. Far above average condition.** **($50.-Up)**
Also ex-Gibbs and ex-Clapp. Very much like lot #1112 in the Ray Byrne sale, probably not from the same dies. Design as last with a few differences. Obverse: A single crown over the monogram, breaking the legend, dividing "F" and "4". "CAROLVSxETx-IOHANNA." Reverse: "S-P" completely missing, either extremely weakly punched into the die or not at all. "(RE)GISxISPANIARVMxET+". **XF,** nice brown color. "F" and two letters of the legend are weak. Two letters are illegible. Otherwise, the coin is bold. Very minor verdigris. Flan not round at top.

3036 **N. D. (1506-1516). 4 Maravedis.** Cuttag 4639-41. Above average condition. **VF+** sharpness of existing details. **($50.-Up)**
As last, only "S-P" bold. Different from Guttag 4640-41 (4639 not illustrated), the "4" leaning backwards.
No corrosion. Boldy struck with little wear, but the strike is uneven, affecting mainly the legend. Obverse: "CA(R)O(L)VS.ET.(————) A". Reverse: "REGIS. (————) IARVM." The legend stops are periods.

3037 **N. D. (1808-1822). ¼ Real.** Cr. 51. Apparently a later state of Guttag 4643 dies. **VF.** **($60.-Up)**
Similar to last, only the fraction completely below "SD." Rather bold. Vaguely glossy brown. The bottom of the "4" is off the flan, as always on this variety. 24mm., 5.87gms.

3038 **N. D. (1808-1822). ¼ Real.** Cr. 51. Cuttag 4647. **AVF.** **($45.-Up)**
Similar to last. Tiny obverse scratch. Rather a weak strike, but a complete and mostly even strike. 24mm. 4.97gms.

3039 **N. D. (1808-1822). ¼ Real.** Cr. 51. Possibly Guttag 4648. **VF.** **($75.-Up)**
Similar to last, only "SD" (period after "D"). Also, top of "1" between "SD." Three dots in right lobe of crown. Slightly double-struck on reverse. **The nicest piece in this group.** 26mm. 6.90gms.

3040 **N. D. (1808-1822). ¼ Real.** Cr. 51. Guttag 4649E. **Fine.** **($35.-Up)**
Obverse: Crowned "I·7". Reverse: I S.D. 4 within wreath. Fernando VII, 1808-33. In Santo Domingo, 1808-22. Crude, the obverse rather weak. 22mm., 3.30gms.

3041 **N. D. (1808-1822). ¼ Real.** Cr. 51. Guttag 4649?? **Fine.** **($40.-Up)**
Similar to the first piece listed. 22mm., 3.55gms.

3042 **N. D. (1808-1822). Copper 2/4 Real.** Spanish occupation. Cr. 49, Fonrobert 6471. Not in Guttag. **Quite rare. VF-XF. (Photo)** **($300.-Up)**
Although catalogued as far back as 1863 (Neumann, #22055), it was only in the last few years that the coin and its companion ¼ Real were attributed to Hispaniola and not Mexico. Fonrobert had three varieties, but this is the first piece we have ever seen. Much rarer than our estimate indicates. Apart from the two obvious planchet flaws, there are no nicks, scratches or rough areas in the surfaces: This one is a prize.

SAN MARINO

3043 **1906. Lira.** Y. 4. **Scarce. AU.** **($60.-Up)**

3044 **1863. ¼ Cent.** Y. 2. **Choice Unc.** **($125.-Up)**
Bust of James Brooke, Raja, 1841-68/Value in wreath. **75% red.** All but the fourth lot of this outstanding group of Sarawak coins were acquired by Raymond from a single, very old collection. The collector's original tags have been saved.

3045 **1863. Half Cent.** Y. 3. **Red and tan Unc.** **($100.-Up)**
Type similar to last. 50% red. Choice except for minor spotting. Overall, an average Unc. coin and thus quite desirable.

3046 **1863. One Cent.** Y. 4. **Unc.** **($40.-Up)**
Type similar to last. Almost flawless surfaces, but some obverse spotting. Lovely red and brown color, with blue overtones.

"VERESCIT.VVLNERE.VIRTVS." England and Scotland did not issue the profusion of historical jettons that were popular on the continent. An early piece like this, particularly from Scotland, is rare and very desirable. "Medallic Illustrations (Elizabeth) No. 77."

3065 **N. D. (1567-1625). Silver Shilling** of James VI, 1567-1625. **Abt. XF.** **($60.-Up)**

SEYCHELLES

The following lots represent all the Proof coinage for Seychelles before 1964 with the exception of the 1960 Half Rupee. In addition, three unpublished dates are represented.
Our consignor has shown us a copy of a 1972 letter in which Jerome Remick, the world's foremost collector of British Commonwealth coins wrote: "On Seychelles Proof coins, I would estimate 5 to 15 copies of each were struck. Perhaps 15 to 25 of the 1939. The Royal Mint does not keep records of these small strikings. Most of the pieces are in museums, some destroyed or lost, and only a very few in collections. I have rarely, outside of Barret and Spinks, seen a Seychelles proof offered for sale." We feel that our consignor assembled the finest Seychelles coin collection in the world, and that it is most fitting that these Proofs be included in the Wayte Raymond sale. A word of caution: The Krause-Mishler catalog severely underrates many Seychelles coins. A good example is the 1939 Rupee in Unc., which lists $65 in Remick (1971) but only $50 in the 1977 K-M.
We feel these extremely rare proof coins are worth 2-3 times the K-M prices, and expect that their rarity will be better appreicated after this sale.

3079 **1939. Scalloped edge 10 Cents.** Y. 1. **Brilliant Proof.** **($200.-Up)**

Perhaps one or two dozen known.

3080 **1939. 25 Cents.** Y. 2. **Brilliant Proof.** **($200.-Up)**

Perhaps one or two dozen known.

3081 **1939. Half Rupee.** Y. 3. **Brilliant Proof.** **($275.-Up)**

Perhaps one or two dozen known.

3082 **1939. Rupee.** Y. 4. **Brilliant Proof.** **($275.-Up)**

Perhaps one or two dozen known. A small tarnish spot-removable with a dipping, if really thought necessary in the top of the crown. A hairline across the King's jaw.

3083 **1944. Scalloped-edge. 10 Cents.** Y. 1. **Brilliant Proof.** **($175.-Up)**

Very few known.

3084 **1948. 1 Cent.** Y. 5. **Proof.** **($135.-Up)**

The obverse is a lovely brown shade, the reverse is fully brilliant. **Very few known.**

3085 **1948. 2 Cents.** Y. 6. **Proof.** **($100.-Up)**

The obverse brilliant, the reverse more toned. Very light traces of handling. **Very few known.**

3086 **1948. 5 Cents.** Y. 7. **Proof.** **($125.-Up)**

Only a few known. The obverse with attractive purple toning, the reverse almost fully brilliant, with two tiny spots at the top.

3087 **1951. 10 Cents.** Y. 8. **Brilliant Proof.** **($300.-Up)**

Same comment as preceding lot. **Of the highest rarity.** A lovely coin with light blue toning where the devices meet the field

3088 **1951. 25 Cents.** Y. 9. **Choice Brilliant Proof. Unlisted!** **($300.-Up)**
In 1951 the obverse legend on the 25 Cents and 10 Cents was changed from "GEORGE VI KING EMPEROR" to KING GEORGE THE SIXTH. As the occasion—a new design—for these proofs is clear, it is most unusual that Remick was not aware of any specimens in museums or private collections. **Obviously of the highest rarity.**

3089 **1953. 10 Cents.** Y. 10. **Brilliant Proof.** **($175.-Up)**
A new type 10 Cents, struck to the specifications of the English brass Threepence. Very few exist.

3090 **1954. 25 Cents.** Y. 11. **Brilliant Proof.** **($175.-Up)**
Very few known.

3091 **1954. Half Rupee.** Y. 12. **Brilliant Proof.** **($175.-Up)**
Very few known.

3092 **1954. Rupee.** Y. 13. **Brilliant Proof.** **($200.-Up)**
Very few known.

3093 **1961. 2 Cents.** Y. 15. **Brilliant Proof. Unlisted!** **($175.-Up)**
Of the highest rarity. By 1961, there was enough activity in the foreign coin field that, had there been more than a few of these made, the existence of these proofs would have been reported. An appropriate final lot for this outstanding group!

SIERRA LEONE

3094 **1791. Penny.** Cr. 2. **Bronze Proof.** **($80.-Up)**
Type similar to above. 32 mm. Some obverse spotting, not really so bad.

3095 **1791. Penny.** Cr. 2. **XF.** **($25.-Up)**
Two small rim nicks. Die breaks along the edges.

3096 **1791. 10 Cents.** Cr. 3. **AU.** **($60.-Up)**
Type similar to last. Tarnished.

3097 **1791. 50 Cents.** Cr. 5. **VF. (Photo)** **($150.-Up)**
Type similar to above. Two small rim nicks. Remick (1971) priced this at $110 VF. Scarcer than generally realized.

3098 **1791. One Dollar-100 Cents.** Y. 6a. **VG.** **($125.-Up)**
Lion/Handshake. A dig above the lion.

3099 **1791. 1 Dollar.** Cr. 6. **Struck in copper. (Photo)** **(——)**
Type as last, except "1" above and below handshake (instead of "100"). The coin is **Unc.** with a rim nick at 8:00 obverse, but the dies are shallow and the planchet poor, making it look only XF. Also, the color is brown with no suggestion of mint lustre. It is struck and appears to be from original dies, although genuine copper strikes are supposed to be proof. Sierra Leone coins were made by Matthew Boulton's Soho mint, and were extensively used for presentation and other unofficial, non-currency purposes. Our best guess is that this is an average but genuine, Soho product.

3100 **1805. 10 Cents.** Cr. 3. **Unc.** **($150.-Up)**
Just a bit tarnished. Remich (1971) $125. A leading dealer's printed "buy" is $115.

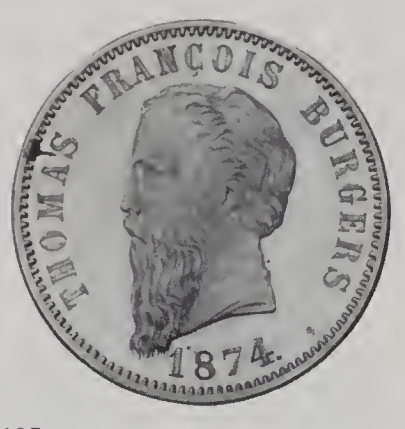
SOUTH AFRICA
CAPE OF GOOD HOPE

3101 **N.D. (c. 1860-1870).** Set of two **Copper Tokens.** (1). "GOOD FOR ONE COPY EVENING EXPRESS"/"FREDR R. LOVEGROVE ' CO. PRINTERS, CAPE TOWN." 20 mm. **VF+** (2). "E.K. GREEN & Co., WINE MERCHANTS, CAPE TOWN." on both sides, 22 mm. **VF+.** Both about farthing size. **2 Pcs.** **($25.-30.)**

3102 **1861. Half Penny. Token.** Bronze, 29 mm. **Proof.** **($40.-50.)**
Seated Goddess, "CAPE OF GOOD HOPE" and date/"WHYTE & CO., TEA MERCHANTS & GROCERS, CAPE TOWN." Rich brown toning, **Well excuted specimen.**

3103 **N. D. (C. 1870). Half-Penny Token.** Bronze, **Unc.** 28 mm. **($25.-35.)**
Ship/"HALF PENNY TOKEN TO FACILITATE TRADE"/"MARSH & SONS. IMPORTERS, CAPE TOWN" **Unc.**, small spot on rev. **Beautiful violet and rainbow toning.**

3104 **1879,** Half-Penny Size Token, Chocolate colored bronze, 27 mm. **VF.** **($25.-Up)**
National arms/"CAPE OF GOOD HOPE"/"J. W. IRWIN, TEA MERCHANT & GROCER CAPE TOWN,"



3105 **1874. Pattern 5 Shillings.** Aluminum. Friedberg 1. **Very Rare. Proof. (Photo)** **(——)**
Long-bearded bust of Thomas Francois Burgers, President, 1872-77/Arms. 38 mm., 7.52 gms. Identical to the regular issue gold pound. In 1962, Friedberg priced this coin at $250, compared with a $500 price for the gold pound. In 1971 Jerome Remick, in the South Africa section of his superb catalog of British Commonwealth coins, wrote: "In addition to all the above patterns related to South Africa, there exists a series of Burgers patterns in various metals. All are dated 1874 and are very rare to excessively rare. For this reason we did not see the necessity to include them in this catalog."
Remick did catalog two varieties of the 1874 gold pound, pricing them at $2,500 and $1,900 in Uncirculated. Krause now prices these varieties at $10,000 and $7,500. We do not know if, as Friedberg suggests, the coin will bring halt the price of the gold pound. Nor can we predict what effect the off-metal striking will have on collector interest. We can only say that this is one of the rarest foreign coins to be offered in the U. S. There is an oxidation spot at 10:00 obverse, which hardly matters on a coin this rare.

3106 **1874. Pattern 1 Penny.** Kaplan 20, Remick T1. **Proof,** toned red. **(Photo)** **($150.-Up)**
Arms/Value on grid.

3107 **1880. Town of East London. Penny Token.** Not in Atkins. **VF.** **(——)**
Accompanied by a B. G. Johnson envelope, appraised by Johnson (in 1946) for $10.00. Described as a Ferry token but not in Smith. Obverse: large "1" and smaller "D" in circle, "EAST LONDON MUNICIPALITY" around edge. Reverse: "EAST/LONDON/1880" in circle, "PAYABLE AT THE MUNICIPAL OFFICE." around edge. 25 mm. bronze.

3108 **1880. Penny Token.** A duplicate of the last lot. **VF+. (——)**

3109 **N. D. (1883-1902). Transvaal Republic.** Token of Paul Kruger, President, 1883-1902. **XF-AU.** **($125.-Up)**
Bust in plain field (very similar to the 1892-97 sixpence)/"GROETE van PAUL KRUGER." 22 mm., German silver. One of the earliest numismatic pieces of the Transvaal Republic, remarkably well-preserved (German silver tends to darken) and almost never offered.

3110 **1892. 6 Pence.** Y. 3. **Unc.** **($45.-Up)**
Type similar to last.

3111 **1892-94-96. 2½ Shillings.** Y. 6. Set of the three dates. **VG+, About Fine,** and **XF,** respectively. **3 Pcs.** **($45.-Up)**
The 1892 has a low mintage of 16,000 but has several light scratches across the head.

3112 **1892. 5 Shillings.** Y. 7. **Abt. Unc.** **($150.-Up)**
Bust of Kruger/Eagle perched on draped arms. Single shatt variety. Mintage of only 14,000. Light traces of handling. The crowns of the Kruger Republic, unlike the lower values, are scarce in any grade; this one should inspire heavy bidding.

3113 **1892. 5 Shillings.** Y. 7. **Abt. XF.** **($50.-Up)**
As last. Has been lightly polished, and there is a minuscule mount trace on the edge reeding.

3114 **1892. Gold Pond.** Fr. 2. Type with double shaft. Y. 9a. **XF.** **($200.-Up)**
Bust of Kurger/Arms. 15,650 of this type were coined in the Berlin Mint. In addition to the errors in the wagon, the engraver's initials, O. S. (for Otto Schultz), spelled "OS", meaning "OX" in Dutch. This upset Kruger Supporters and led to the correction of the double-shaft error, and an anonymous Kruger portrait.

3115 **1893. Penny.** Y. 1. **Rare date. VF+.** **($75.-Up)**
Design similar to the 5 Shillings except there is no eagle on the reverse. Possibly the hardest-to-get date of the whole Kruger series. Some small edge nicks, but the coin is still Fine or better.

3116 **1893. 3 Pence.** Y. 2. **Unc.** **($35.-Up)**

3117 **1893. 6 Pence.** Y. 3. **Nice Unc.** **($90.-Up)**

3118 **1893. 2 Shillings.** Y. 5. **Rare date. F-VF.** **($50.-Up)**
Type similar to last.

3119 **1896. 2½ Shillings.** Y. 6. **Unc.** **($50.-Up)**
Type similar to last, except no inscription on obverse. The reverse is beautiful.

3120 **1897. Shilling.** Y. 4. **Unc.** **($45.-Up)**

3121 **1897. 2½ Shillings.** Y. 6. **Unc.** **($50.-Up)**

UNION OF SOUTH AFRICA

1923 PROOF COINS

The following 8 lots came to us with the original case for the 1923 Proof set. As the Half Sovereign and Farthing were removed, we have decided to break up the rest of the plundered set.

3122 **1923. Gold Sovereign.** Y. 22. **Proof. (Photo)** **($1,000.-Up)**
Mintage of 1,374 pieces of which 655 were struck as Proofs. Same type as the English Sovereign, but with the 'SA" mintmark.

3123 **1923. 2½ Shillings.** Y. 21. **Proof.** **($150.-Up)**

3124 **1923. Florin.** Y. 20. **Proof.** **($100.-Up)**

3125 **1923. Shilling.** Y. 19. **Proof.** **($90.-Up)**

3126 **1923. 6 Pence.** Y. 16. **Proof.** **($90.-Up)**
Scarce date with only 209,000 business strikes.

3127 **1923. 3 Pence.** Y. 15. **Proof.** **($50.-Up)**
Somewhat clouded.

3128 **1923. Penny.** Y. 13. **Proof.** **($75.-Up)**
Only 91,000 business strikes. Scarce, two-year type. Dark, medallic tone, but somewhat clouded.

3129 **1923. ½ Penny.** Y. 12. **Proof.** **($200.-Up)**
Rare date (Krause $125 XF, $200 Unc.) and scarce type. 12,000 business strikes.

3130 **1923. ½ Penny.** Y. 12. **Brown Unc.** **($150.-Up)**
Similar to the Penny. Mintage of only 12,080. Krause $200.

3131 **1924. ½ Penny.** Y. 12. **Brown Unc.** **($60.-Up)**
Some spotting. A small weak spot above the King's ear. A scarce type.

3132 **1924. Shilling.** Y. 19. **Unc.** **($75.-Up)**
Bust of George V, 1910-36/Standing commerce with anchor.

3133 **1932. Penny.** Y. 25. **Brown Unc.** **($40.-Up)**
Type similar to last. Selling for much more than Krause indicates.

3134 **1933. ½ Penny.** Y. 24. **BU.** **($85.-Up)**
Type similar to last. Mintage of only 63, 435. One dealer offered this in a recent list for $82.50; Remick (1971) priced it at $60.

3135 **1933. ½ Penny.** Y. 24. **Red Unc.** **($60.-Up)**
A small edge nick at 3:00 obverse.

3136 **1933. Penny.** Y. 25. **BU.** **($40.-Up)**
A trifle soft-struck.

3137 **1933. Penny.** Y. 25. **BU.** **($40.-Up)**
A little sharper than the last lot, but with very minor obverse spotting.

3138 **1935. ¼ Penny.** Y. 23. **Choice Proof. (Photo)** **($200.-Up)**
Bust/Pair of birds. **One of only 20 proofs.** Blue, brown and iridescent toning, with some original color on the obverse. Rather frosty surfaces in comparison to the brilliant proofs issued by most mints.

3139 **1936. ¼ Penny.** Y. 23. **Extremely rare date. Unc. (Photo)** **(——)**
Mintage of 43 pieces, plus 40 proofs. Krause prices the proofs at $4,000; the currency strikes are unpriced. This piece is toned brown, with much red and iridescent color. It is perfectly struck and without any contact marks. Some light handling on the obverse, and trivial handling on the reverse, remove this coin from the gem category.

3140 **1936. ½ Penny.** Y. 24. **Proof. (Photo)** **(——)**
Proof mintage of only 40. The obverse is a lovely caramel color, lightly fingerprinted. The reverse is red and brown. **Unpriced in Krause,** Remick (1971) $135. (By comparison, Remick listed the proof-only 1931 date at $300; Krause lists it for $750).

3141 **1947. Shilling.** Y. 36. **Choice Proof.** **($75.-Up)**
Total mintage 12,384. Krause $50 VF, $150 Unc. The $32.50 price for proof is less than the $35 price in Remick (1971), who also priced Unc. for $50.

3142 **1947. 2 Shillings.** Y. 37. **Proof.** **($100.-Up)**
Total mintage 8,092. Again, much underrated in comparison to the Unc. price ($200).

3143 **1948. Shilling.** Y. 45. **Rare date. Unc.** **($125.-Up)**
Krause $150. Light trace of fingerprinting.

3144 **1948. Shilling.** Y. 45. **Rare date. XF.** **($75.-Up)**
Krause $100.

Please note that there are no buyers' charges in NASCA's sales of Foreign Coins.

3146 **1948. 2 Shillings.** Y. 46. **VF/VF+.** **($50.-Up)**
Scarce date, a total mintage of only 9,013.

3147 **1948. 2½ Shillings.** Y 47. **Rare date and type. Unc.** **($125.-Up)**
Total mintage of 3,840 for the date, 13,407 for the type.

3148 **1948. 2½ Shillings.** Y. 47. As last. **Choice AU. ($100.-Up)**

CHOICE UNC. 1948 SET OF NINE DENOMINATIONS

(The 6 higher values, 3 Pence thru the Crown, are all Silver.) Y. 40-48. **All Unc.**, and the silver coins are nicely toned. The Shilling is rare (mintage, 6,094), as are the 2 Shillings (mintage, 7,893) and the 2½ Shillings (mintage. 2,720). **9 Pcs.** **($500.-Up)**

3150 **1950. Proof set.** ¼ Penny through 5 Shillings, Y. 40-48. **9 Pcs.** **($300.-Up)**
Krause value $400. (mintage only 500). Uncased. Remick (1971) priced this set at $335. There is a spot on the 2½ Shillings, but otherwise this is a choice set. The 2 Shillings and 2½ Shillings catalog $200 and $150 respectively, in Unc.

3151 **1950. 5 Shillings.** Y. 48. **Choice Prooflike Unc.** **($40.-Up)**

SPAIN
(MEDIEVAL TO 1808)

3169 **N.D. (1312-50). Castile.** Billon **Noven** of Alphonso XI. **XF.** **($50.-Up)**
Crowned head of King/Castle. Perhaps an Unc. hoard coin. A small part of the legend is weak.

3170 **N.D. (1474-1504). 1 Real** of Ferdinand and Isabella. **Fine.** **($30.-Up)**
A small edge knock but full legends. Segovia Mint, Assayer P.

3171 **N.D. (1474-1504). 1 Real** of Ferdinand and Isabella, 1474-1504. **Fine.** **($25.-Up)**
Crowned arms/Bundle of arrows. The variety with five-points and "T" to left and right of arms. (Vicenti 347). Toledo Mint.

3172 **N.D. (1474-1504). 2 Reales.** Silver. Vicenti 371, C. C. 551. **About XF.** **($60.-75.)**
Crowned shield and inscription of Ferdinand and Isabella/Arms on eagle. About one-third of the legend is clear.

3173 **N.D. (1474-1504). Double Excelente** struck in silver. Type of 2 Excelentes in gold, Fr. #28. Seville Mint. **XF-AU. (Photo)** **($150.-Up)**
Crowned busts facing of Ferdinand V and Isabella I/Eagle over arms. Probably a semi-official issue of the early 1800's. Rare.

3174 **N.D. Cob 8 Reales** of Philip II, 1556-98. **Seville Mint, Assayer U. Very rare assayer.** Calbeto 1543, C-C. 1633, Vicenti 710 (160,000 Pesetas). **XF. (Photo)** **($600.-Up)**
Much nicer than the Calbeto plate coin. Struck on a flan broad enough to accomodate the entire design. ¾ of the legend is bold and most of the other letters are at least faintly present. The denomination, assayer's initial, and King's ordinal are bold, the mintmark weak. There are weak spots on the lower half of the shield and on the upper right castle. The toning is lovely. Vicenti's price of 160,000 Pesetas may be optimistic, but a similar piece, assayer F, listed at 140,000 Pesetas, brought $600 in a Christensen auction, althought not as nice as this piece.

3175 **N.D. (1556-88). Gold 2 Escudos.** C.C. 2679, Vicenti 772, Fr. 53. **VF+.** **($200.-Up)**

Crowned shield and inscription of Philip IV/Quartered arms. Assayer BR. A scarce overdate.

3178 **1662. 16 Maravedis.** Eklund 30. **XF.** **($20.-Up)**

3179 **1677. Barcelona 1 Real** Silver. **Fine.** **($25.-40.)**

Monogram and inscription of Charles III, Pretender to the Spanish Throne/Crowned shield. Scarce in this superior grade and interesting historically. Struck at Barcelona.

3182 **1712-1738.** Lot of two **early silver coins. VF.** **($25.-Up)**

Crowned shield and inscription of Philip V./Quartered arms.

3187 **1728-Sg/F. 2 Reales.** Vicente 730, C. C. 10366. **Fine+.** **($25.-35.)**

Crowned shield and inscription of Charles III/Quartered arms. Extremely scarce and seldom offered. Nicely toned.

3192 **1761-M/JP. Gold ½ Escudo.** Fr. 133. **VF.** **($75.-100.)**
Plain head of Charles III/Crowned arms.

3193 **1776-Sv/CF. 8 Reales.** Cr. 40. **VF. (Photo)** **($400.-Up)**
Bust/Crowned arms. Craig $350. Vicenti prices dates of this type at a minimum of 70,000 Pesetas. The coin has been very lightly polished, but has an almost natural color. There are some pinpoint digs near the rims. Still, the coin is easily worth "more than our estimate."

All have plain edge, obverse and reverse rotated. The obverses all have an artistic vignette of St. George and the legend: "UNIO CATALANISTA 1900." The reverses of the gold coins show a throne, with the legend: "VINDICAMUS HAEREDITATEM PATRUM NOSTRORUM." The 5 Pesetas has the Catalonian shield on obverse, surmounted by the "Chimera" (a winged serpent), and the same legend. The 100 Pesetas shows some nicks on the thin, raised border; there are lighter nicks on the edges of the 20 Pesetas and the reverse of the 5 Pesetas. **We have not been able to find a sales record** for the gold pieces since they brought £125 at the Farouk auction. **(At the same time, a U.S. $50 slug brought £150, and 1870 pattern 100 Pesetas £125, a "perfect" 12 Roubles platinum £115, and the unique 1907 Double Eagle pattern now being touted at $1 million brought £1200).** They are **unpriced** in Friedberg. Vicenti prices the 5 Pesetas at 10,000 Pesetas; a U.S. Crown specialist, however, offered one on his price list for $400 over 5 years ago. 3414 **1796. Silver medal. 60 mm.** Grove C-267. **XF/AU. (Photo) ($200.-Up)**
On the erection of the equestrian statue of Carlos IV, 1788-1808, in Mexico City, by commission of the Marquis de Branciforte. Grove devotes an entire page to this impressive medal. Obverse: Accolated busts of the King and Queen Maria Luisa, names and titles above, inscription and date in small letters under the truncation. Reverse: The statue on a spectacular pedestal. Inscription around the edge and, in smaller letters, in the left and right fields. Date in exergue. A superb medal by G. A. Gil. A drop mark on the edge, and a small but noticeable notch cut into the edge. Grove prices this at $125. In our June, '77, lot 1023, we sold an 1810 medal, silver 68 mm. of similar historic interest, Grove F-20. That piece catalogs $90 in Grove but realized $310 in our sale. Thus we would not be surprised if this brought over $400.

3417 **1812. Silver medal** on the Constitution, proclamation at Cadiz. 57 mm. **Unc. (Photo) ($200.-Up)**
Superb medallic art by F. Sagau. Fernando VII, 1808-33, plotted against his father, Carlos VI, with Napoleon. After Carlos abdicated, Napoleon had Fernando arrested! Thus he was "exiled" from Spain until his release in 1814. With the aid of supporters, especially in the colonies, Fernando made a show of ruling his ill-gotten kingdom, as exemplifed by the proclamation of this Constitution while Jose Napoleon sat on the Spanish throne.

Obverse: Bust and inscription. ". . . by the Grace of God and the constitution of the monarchy," etc.

Reverse: Inscribed open book, beneath star and rays, resting on two globes showing the eastern and western hemispheres. The book supported by a nude soldier and loin-clothed Indian warrior. Some other symbolic representations at their feet and in the background. Exergue: "PROMVLGADA EN CADIZ/A 19 DE MARZO DE/1812." Three rubber-band streaks on the obverse. Two, fortunately, are rather light and the third is partly obscured by the rich toning of the medal.

3418 **1843. Cadiz.** Bronze Proclamation Medal of Isabella II. 24 mm. **XF. ($20.-30.)**
"ISABEL II," within rays, "CONSTITUCIONAL D'ESPANA." etc./"PROCLAMADA EN CADIZ," etc., date within wreath. Nicely toned.

3419 **1855.** Bronze Religious Medal, 24 mm. **Unc. ($20.-30.)**
Crowned Barcelona arms between crowned L's/Inscription referring to the canonization of S. V. Ferrer.

3528 **(1966). Silver strike** from the dies for the gold 2,000 Dollars. (Y. 544). **Very Rare. Unc. (Photo)** **(——)**
The gold coin was issued to commemorate the 80th birthday of Chiang Kai-Shek. Bust left Two birds on a rock. There is a hairline die break on the brow. Some die rust is evident in the center of the reverse. The reverse die has had the denomination removed from the bottom and has been reinscribed with different characters. Our consignor knows of only three such pieces. The gold coin, Friedberg 17, catalogs for $600.

3529 **(1971). Pattern 2,000 Dollars.** Silver. 60th Anniversary of the Republic. **Unlisted. Very Rare. Unc. (Photo)** **(——)**
The obverse is somewhat like the 50th anniversary coin pictured in Krause, page 310, unnumbered and described as scarce. The bust on this coin is larger and the entire inscription is at top. The inscription is the same, except for the substitution of "60" for "50". The reverse also employs a circular wreath design, but a simple symbol is substituted for the denomination. The piece bears no value; gold strikes are not listed in Friedberg. A gold strike was recently offered for $295.

TOBAGO

3533 **(1798). TB/o counterstamp** on French Colonies stampee. Cr. 6. **Coin and Stamp About Fine.** **($50.-Up)**
Not in the Ray Byrne sale. The coin is a contemporary of the type with a crowned "C" on an otherwise blank billon planchet (Craig, French Cols. #80).

3534 **(1798). TB/o counterstamp** on a 1789 Cayenne Sous. **Coin Fine, stamp VF.** **($30.-Up)**
Actually a "TB" stamp (Cr. 5), the "O" being added surreptitiously to simulate Cr. 6 and artificially increase the value from 1½ to 2¼ pence. Pridmore 4 is an identical example.

3535 **(1798). Genuine TB/o counterstamp** on a false coin. Cr. 6. Overall, **Fine.** **($50.-Up)**
The coin is a brass counterfeit of Craig, French Cols. #7b. #7b is a Sou Marque with "crowned C" counterstamp. The false piece is struck from dies already bearing the "crowned C", as well as fragments of the Sou Marque legend.

3536 **(1798). False TB/o counterstamp** of the 1749 (Paris) Sou Marque. Cr. 6. **Coin Good, stamp VF.** **($25.-Up)**
The coin appears to be genuine, although by now it is perhaps impossible to tell. The stamp is too large, and the serif at the bottom of the "T" is 4 mm . Contemporary, of course.

3537 **(1798).** False "TB/o" counterstamp on a false stampee. Cr. 6. **Coin and stamp XF.** **($35.-Up)**
The coin is Craig, French Cols. #10. The stamp is large. The "T" being 8-m. tall. The "B" is lower than the "T", and the "o" shows small rectangular indents. Fascinating!

3538 **(1798). False TB/o counterstamp** on a 1749 (Paris) Sou Marque. Cr. 6. **Coin Abt. G, stamp Abt. XF.** **($30.-Up)**
The coin is presumably genuine. The "T" is without a seriph at the base, the "o" is far below "TB." The coin was previously given the "crowned C" counterstamp, Cr. 7b.

3539 **(1798).** False TB/o counterstamp on a 1760/59 (Paris) Sou Mmarque. Cr. 6. **Coin Good, stamp probably Unc.** **($50.-Up)**
The stamp is identical to the previous lot. The 1760/59 Sou Marque is an extremely rare date. (the date looks like 1769).

URUGUAY

AN OUTSTANDING OFFERING OF THE EARLY COPPER COINS

Fifteen different varieties of early (1840-55) Uruguayan copper coins are known at present. The group offered here contains eight of these varieties, plus four duplicates. Five of the coins are Uncirculated. (In 1971, Latin American specialist Alcedo Almanzar wrote that he had handled one of these coins in Uncirculated in 10 years).

Late last year a complete collection of Uruguayan coins, formed by an Argentine financier was sold privately in the U. S. Apart from that collection, this is the best offering of early coppers in recent memory. All these coins are of similar design. The obverse shows a sunface with rays, with the date below and the circular legend "REPUBLICA ORIENTAL DEL URUGUAY." The reverse shows the numeral of value in a double-line circle, on a background of horizontal lines. Above the circle is a banner, inscribed "CENTESIMOS". A wreath tied at the bottom and open at the top, encloses the value.

3601 **1840. 20 Centesimos.** Y. 2. **Brown Unc. (Photo)** **($300.-Up)**
Fully glossy surfaces, unpriced in Krause in this grade. Planchet occulusions on the edge at 6:00 and 9:00 obverse. There are a number of other edge flaws, all minor and as struck. There is a light stain on "EPUB", and a small, very light patch of discoloration at 3:00 reverse. Nicely struck with no flaws except those on the edges. A really pleasing coin!

3602 **1840. 20 Centesimos.** Y. 2. **VF.** **($45.-Up)**
Struck on a very nice planchet. Very minor discoloration. A scratch between "2" and "0". One moderate and two small edge nicks, in addition to the usual minor edge nicks. From different dies than the last piece. The ray pointing between "8" and "4". The reverse dies also show minuscule differences.

3603 **1843.** Supposedly over 1840. **20 Centesimos.** Y. 2a. **Very Choice Red and Brown Unc. (Photo)** **($325.-Up)**
Flawless surfaces - no bag marks! Even tan and brown toning with at least 20% original color. An almost perfect planchet. This is a magnificent coin that should be examined - no black-and-white photo will do it justice. The dies are different from either of the 1840's above, being distinguished chiefly by thin rays. It is also different from the 1843/40 pictured in Krause. The "3" is punched into a large raised circle that extends under the cross of the "4". There are thin die cracks between "1" and "1" on obverse and from the rim to the center at 5:30 reverse.

3604 **1844. 20 Centesimos.** Y. 2a. **Rare date. Choice Brown Unc. (Photo)** **($750.-Up)**

A lustrous coin with some red and golden color. Nearly the equal of the last piece. There is a chip out of the rim at the top of the reverse, but it is very minor and may not even show in the photo. The planchet is perfect, otherwise. Krause $400 XF, unpriced in Unc. This **premium Uncirculated** specimen could reach four figures.

3605 **1844. 20 Centesimos.** Y. 2a. **Rare date. Fine.** **($100.-Up)**

Krause lists this at $275 in VF. Slightly weak-struck at the edges. The rays are encrusted with loose dirt. The planchet is nice, but there are several light to moderate edge nicks. Still a nice VG for this and can be improved by skillful cleaning.

3606 **1844. 40 Centesimos.** Y. 3. **Brown Unc. (Photo)** **($300.-Up)**

Krause $400. Rather dull color. Some planchet porosity, resulting in "ENTAL" being weak. Two small edge nicks. On this die, a large ray points to "R" of "URUGUAY."

3607 **1844. 40 Centesimos.** Y. 3. **Unc. (Photo)** **($250.-Up)**

The reverse is dull brown but choice. The obverse is quite crude but does show some mint color. The legend is a bit weak, there are a few planchet flaws and a heavy die break at 3:00 There is a patch of dark color in the center, the planchet being discolored when struck. A ray points to the "U" of "URUGUAY."

3608 **1854/40. 5 Centesimos.** Y. 1. **Partly Red Unc.** **($275.-Up)**

10% red on obverse, almost half red on reverse. Krause does not price 5 Centimos before 1855 in Unc. (The 1855 catalogs $350). This is an especially nice piece in that there are no planchet or striking flaws. Surely one of the finest known, we do not know of an equal specimen.

Although struck from an altered 1840 die, there is no trace of the "40" remaining on the die. The "54" is actually struck over a raised oval which completely obliterates the "40."

3609 **1854. 20 Centesimos.** Y. 2a. **Abt. VF.** **($35.-Up)**

The variety of this year with the small reverse design. A number of planchet flaws, including a very small clip at 1:00 obverse. One tiny edge nick. Nice, light brown color.

3610 **1855. 5 Centesimos.** Y. 1a. **Choice XF.** **($200.-Up)**

A subtype of the 5 Centesimos, having a larger sunface than previous years. This coin is boldly struck and has remarkably clean surfaces, suggesting that the piece may actually be AU but struck on a dull-colored planchet. The edges are a bit ragged, giving the appearance of some edge nicks. There are no flaws on the faces of the coin. The coins of this year are said to contain some gold, and, indeed, there is an unusual golden cast to some of the surface. See Almanzar and Seppa, **The Coins of Uruguay,** for information on these "debased gold" coins.

3611 **1855. 20 Centesimos.** Y. 2a. **VF of better.** **($80.-Up)**

Bold obverse, but weakly struck on the wreath. Edge knock at 4:00 obverse, neither this or the next lot shows the gold color so prominent on the 1855 5 Centesimos offered above.

3612 **1855. 20 Centesimos.** Y. 2a. **VF.** **($60.-Up)**

So-so obverse strike, nice reverse strike. Minor planchet flaws along the rims. Minor verdigris on reverse.

3613 **1857-D. 5 Centesimos.** Y. 4. **Choice Brown Unc.** **($40.-Up)**

Considerable mint red in the devices. D = Lyon Mint. Same type as above, but considerably better-struck.

3614 **1857-D. 20 Centesimos.** Y. 5. **Brown Unc.** **($30.-Up)**

Type similar to above. Some minor spots.

3615 **1857-D. 40 Centesimos.** Y. 6. **Brown Unc.** **($35.-Up)**

Type similar to above. Two tiny rim nicks and three tiny pits in the planchet.

3616 **1869-H.** Three-piece set of copper coins, 1, 2 and 4 Centesimos. Y. 7-9. **All Choice Unc. 3 Pcs. ($125.-150.)**

Rayed personified sun/Value in circle within wreath. "Tasset" at left of a "H" mintmark. Rare set in this superior grade. Heaton's Mint Birmingham.

3617 **1869-A. 1, 2 and 4 Centesimos.** Y. 7-9. **Red to Brilliant Unc. 3 Pcs.** **($75.-Up)**

Types similar to above. A = Paris Mint. Krause $87 for ordinary Unc. The 2 and 4 Centesimos are especially nice.

3618 **1869-H.** Two-piece **specimen-pattern** set of the **2 Centesimos,** Copper. Heaton Mint. Y. 8. As struck. **($300.-350.)**

(1). Specimen. Regular issue. With engraver's name, "Tasset." Large "H" mintmark and large Star. **Gem. Unc.** (2). Pattern. Without engraver's name. Small "H" and small Star. **Proof.** Each has a diff. type Personified Sun and a diff. "2." Very rare set.

3619 **1869-H.** Two-piece **specimen-pattern set** of the **4 Centesimos,** Copper. Heaton Mint. Y. 9. As struck. **($300.-350.)**

(1). Specimen, Regular issue. With engraver's name, "Tasset." "H" mintmark. **Unc.** (2). Pattern. Without engraver's name. Small "H." Different lettering and different expression on the Personified Sun. **Proof.** Very rare and historically interesting set.

UNLISTED DIE TRIAL SET

3620 **1869-H. Six-piece Die Trial Proofs Set** of the **4 Centesimos,** Copper. Y. 9. **Unc., as struck. (Photo)** **($600.-750.)**

Rayed personified sun/Value in circle within wreath. Four pcs. have pen-inscribed numbers on both sides, #1, #3, #5 and #6. Heaton's Mint, Birmingham. All struck on regular planchets, without designer's name. Unrecorded, unlisted, and hitherto unknown.

A LOVELY SET OF 19TH CENTURY MINOR SILVER COINS

The next lots include seven of the eight currency dates of 19th century Uruguayan 10, 20 and 50 Centesimos. Even the rare "1893 no mintmark" 10 Centesimos is represented. Furthermore, five of the dates are Uncirculated. In our June, 1977 sale, a nice Uncirculated 1877-A Peso (Krause $125) brought $280, and we anticipate similar bidding levels for these lovely minor coins. All are of similar type to the 1870 pattern coin illustrated below.

3621 **1870. Pattern 2 Pesos.** Almanzar-Seppa #P130. **Red to Brilliant Proof. (Photo)** **(——)**

Identical to the 1877-95 silver coins, except for the value. 19mm. copper, plain edge. This pattern was struck only in bronze. Obviously rare; the corresponding 1870 1 Peso is listed in Krause, unpriced. Apart from light spotting, this is perfectly preserved. There is, however, a tiny planchet crack on the edge, showing at 10:30 reverse.

3622 **1877-A. 10 Centesimos.** Y. 11. **Choice Unc.** **($25.-Up)**

3623 **1877-A. 20 Centesimos.** Y. 12. **Nice Unc.** **($40.-Up)**

Really beautiful iridescent toning, must be seen to be appreciated.

3624 **1877-A. 50 Centesimos.** Y. 13. **Choice Unc.** **($75.-Up)**

Mintage 400,000. This one could sell much higher than our estimate.

3625 **1893. No mint mark. 10 Centesimos. Very rare date.** Y. 11. **Unc.** **($250.-Up)**
Almanzar-Seppa #57, described as "possible." Krause $250, but we suspect that may be a cautious estimate. The obverse toning is somewhat dull.

3626 **1893-So. 20 Centesimos.** Y. 12. **Unc.** **($50.-Up)**
Grey toning and a bit of tarnish on the obverse, the result of imperfect storage. The "9" is cut over "7."

3627 **1893/73-So. 50 Centesimos.** Y. 13. **XF.** **($15.-Up)**

3628 **1894. 50 Centesimos.** Y. 13. **Unc.** **($60.-Up)**
Beautifully toned. Some slightly prooflike surfaces.

3629 **1895. 1 Peso.** W. Raymond 2, Y. 14. **XF.** **($100.-Up)**
Shield within flags/Value in wreath. Basically this is an Uncirculated coin with original mint surface, though it has sustained some minor rim damage and bag marks. Some details of design not well struck up. Mottled toning.

3630 **N.D. (c. 1900).** Proclamation medal, silver-plated brass. 37mm. **XF,** damaged. **(——)**
"SARANDI YTUSAINGO RINGON DE LAS GALLINAS", within wreath/National arms. Large (7 x 20 mm.) scratched area with plating removed in central reverse.

3631 **1916. 50 Centesimos.** Y. 22. **VF+. 1920. 20 Centesimos.** Y. 20. Similar type. **Unc.** **($30.-Up)**

3632 **1917. 50 Centesimos.** Y. 22. **Unc.** **($75.-Up)**
Nice toning. Obverse with bust of Artigas, reverse with four-part arms in wreath.

3633 **1917. Peso.** Y. 23. **AU.** **($35.-Up)**
Type similar to above. This has been polished, but has toned nicely. There is an edge knock at 8:00 obverse, but this should still be worth an XF price.

3634 **1953.** Set of 2 Centesimos pieces. (1-2). Both Y. 29, C/N **one Proof, the other Unc.** (3). Y. 29a. Aluminum. **Proof. 3 Pcs.** **($80.-100.)**
Rafael Artigas/Value within wreath. Very scarce set.

3635 **1953.** Set of 10 Centesimos pieces. Y. 31. **One a regular issue Unc., the other a Proof. 2 Pcs.** **($50.-75.)**
Rafael Artigas/Value within wreath.

VENEZUELA

3636 **(1812). 2 Reales.** Cr. 13. The blundered-date type. **Date rendered 281. Abt. XF.** **($50.-Up)**
Lions and castles/Pillars over waves. Stohr states that "281" = 1812. This piece, however, is of an irregular style and may be contemporary unofficial issue. There is a fairly large planchet flaw on the reverse.

3636A **1813(?). Blundered date 1 Real.** Date rendered "931" (for 1813?). Cr. 11. **VF+.** **($90.-Up)**
Much scarcer than the corresponding type of 2 Reales. Appears to have been made by the issuer of the last piece. Sold by "Peru!").

3637 **c. 1813-?** Blundered date 2 Reales. **Angostura.** Gibbs 1039. **AU.** **($50.-Up)**
Not in Craig or Stohr. Type similar to the imitations of Lima cobs, Cr. 12. Struck over an 1813 copper 2 Reales of Cartagena. Obverse: Cross with lions and castles. No other design apparent. Reverse: Pillars. "2/SVL-T/800." No other legend apparent. The "8" is made of two "o's"; the last "O" is broken. The overstruck type is much clearer than the Gibbs illustration. Our estimate is cautious; a ¼ Real of Guayana, struck officially in Angostura, sold for $3,000.

3638 **1816. Copper ¼ Real.** Cr. 2. **Counterstamped in Arabic. Coin Abt. VF, stamp XF.** **($50.-Up)**
The counterstamp is probably Duffreld 946. Gibbs 1060. Gibbs suggests this counterstamp may have been to aid the "Arab settlers in the territories." Schulman Coin and Mint fixed price list #6 refers this counterstamp to the Dutch East Indies. Possibly the counterstamp, which is quite clear, is a native southeast Asian script. The characters are raised within an incused rectangle. There is an edge cut at 6:00.

3639 **1817. Copper ¼ Real.** Cr. 2. **Abt. XF.** **($30.-Up)**
Small date variety. Can be improved by cleaning. An 8mm planchet clip.

3640 **(1817). Blundered date 2 Reales.** Date rendered "781". Cr. 12. **VF.** **($50.-Up)**
We cannot positively attribute these dies to Venezuela, although these imitations of Lima cobs are known to have been struck in the Caracas Mint, 1812-17. Similar coinages took place in northern Argentina in the 1820's.

3641 **1817. 2 Reales.** Cr. 6. **About Fine.** **($250.-Up)**
Type similar to last. Krause prices this as a common date. Stohr (correctly) prices this date ten times higher than 1819. Stohr variety "d", small "O" above "7" on obverse (which may affect the price considerably as this is the only die of this type with this feature.

3642 **1818. Copper ¼ Real.** Cr. 2. Counterstamped as **preceding 1816 ¼ Real. XF-AU.** **($75.-Up)**
Scarce condition. The counterstamp is a different die than on the 1816 coin, and looks to have been applied at or near the time of the coin's issue.

3643 **1818. Royalist Coinage. ¼ Real.** Copper. Cr. 2. **VG+.** **($15.-25.)**
Crowned arms/Monogram and value.

3644 **1818—? Two early copper coins.** Cr. 2, 41. **F-VF.** **($30.-Up)**
(1). **1818. ¼ Real.** Cr. 2. **F-VF.** (2). Guayana. **181x. ½ Real.** Cr. 41. **Crude VF.**

3645 **1818, 1819. Two early coins.** Cr. 2, 6. **($25.-Up)**
(1). **1818. ¼ Real.** Cr. 2. **F-VF,** lightly pitted. (2). **1819. 2 Reales.** Cr. 6. **Fine,** jewelry use.

3646 **1818. 2 Reales.** Cr. 6. **AU or better.** **($100.-Up)**
The dies appear to have been made from worn punches. There is a small planchet chip at the bottom (struck). Stohr variety "j".

3647 **1818. 2 Reales.** Cr. 6. **Lions and castles transposed. VF+.** **(——)**
This very significant variety is not reported by Stohr with the date 1818. The coin has very little wear but looks about a grade lower than its actual state of preservation.

3648 **1818. 2 Reales.** Cr. 6. **VF.** **(——)**
A variety of lion completely different than any known to Snohr - the lion has only three legs. (Technically, this coin is XF, but we have graded it by its appearance).

3649 **1819. 2 Reales.** Cr. 6. **XF.** **($35.-Up)**
Harshly cleaned.

3650 **1819. 2 Reales.** Cr. 6. **XF-AU.** **($65.-Up)**
There are only two waves under "CARACAS." This variety is not described by Stohr for any year. The "R" in "CARACAS" looks like a "B."

3651 **1820. 4 Reales.** Cr. 7. **Rare. VF or better.** **($200.-Up)**
Spanish arms divide "F-7" (Fernando VII, 1808-33) Pillars and waves. Retrograde "1" in date. Small edge nick at 3:00 reverse. Tiny drill mark at 12:00 obverse. Cleaned, rather harshly on the reverse. Holed. Krause $275 XF, Craig $275 Fine. An XF in the Gibbs sale (Hans Schulman, March, 1966), partly weak-struck, brought $200.

3652 **1820. 4 Reales.** Cr. 7. **F-VF.** **($175.-Up)**
As last. Cleaned and holed.

3653 **1821. Royalist Coinage 2 Reales.** Silver. Cr. 6, Guttag 4761. **VF.** **($35.-45.)**
Lions and castles alternated within cross "PLVS VLTR," date and "CARACAS." Light clip between 1:00 and 2:00 of obv. This coin is overstruck on a cut-down 2 Real of Carlos IV, 1808 minted in Madrid (Craig 69). The under type is very clear.

3654 **(1830). 2 Reales with date 1818,** "F-7" replaced by rosettes. Cr. 6, Stohr #15. **Scarce. XF.** **($150.-Up)**
This coin was struck in 1830 in imitation of the Royalist coins of 1817-21. The dies were newly made (the lettering is smaller than before) but back-dated. Krause and Stohr list this as a distinct type but Craig does not. Krause misdescribes the type. The mintage of this is less than a tenth of the "F-7" type.

3655 **1852. Centavo.** Copper. Y. 6. **Gem, Mostly Red, Unc.** **($250.-Up)**
Liberty head Value within wreath. Very rare in this superior grade.

3656 **1852. 1 Centavo.** Y. 6. **1862. 1 Centavo.** Y. 7. **Both Abt. XF. 2 Pcs.** **($35.-Up)**

THREE RARE PATTERNS

3656 A **1852. Pattern 1 Centavo in Nickel.** A "double-tailed" striking, muling two reverse dies. Stohr E12A. **Rare. Choice Proof. (Photo)** **(——)**
Presumably made in the Heaton Mint in Birmingham. The dies are identical with those used to strike the 1852 Centavos, Yeoman #6. The use of nickel in 1852 was most unusual. The condition of the dies and the existence of a similar piece in copper indicate that the striking most likely preceded the production of the regular-issue coins. A later striking would possibly indicate that the pieces in nickel are metallic essays. As the double-reverse patterns appear to be die trials, the use of nickel planchets is unusual and the number of pieces so struck must have been extremely small. One of the more interesting Venezuelan patterns.

3656 B **1852. Pattern 1 Centavo in Nickel.** Muling of two reverse dies. Stohr E12a, but different dies than the last lot. **Rare. Nice Proof. (Photo)** **(——)**
Same comments as last lot. The date on these dies is taller and more finely cut. The "1" of the value is thicker. The ribbon tying the branches is thinner. A very interesting, beautiful and rare coin.

3656 C **1852. Pattern 1 Centavo in copper.** Identical to last except for metal. Stohr E12c. **Rare. Nice Proof. (Photo)** **(——)**
A lovely coin, brilliant red and gold with exquisite purple toning. Quite possibly as rare as the preceding nickel patterns and very desirable in its own right. With the current and probably permanent high interest in Venezuelan numismatics, we are confident that these three extraordinary lots will attract spirited international attention.

RARE 1858 COPPER CENTAVO PATTERN

3657 **1858. Centavo. Copper Mule Pattern.** Type of Y. 7, and Stohr E 15 (p. 76). **Unc.** **(——)**
Head of Liberty, "HEATON" inscribed underneath/Value, date within wreath. Medium-incuse engrailed edge. Type not listed. Excessively rare. Struck at Heaton's Mint, Birmingham, England.

Liberty head, "LIBERTAD" in relief, "HEATON" below/Value, date within relief. Thick planchet. Engrailed edge. Red mint lustre only lightly touched with characteristic toning. Very scarce in this high grade.

Liberty head, "LIBERTAD" in incuse, "HEATON" below/Value, date within relief. Thin planchet. Plain edge. Slight obv. fingermark spotting.

Liberty head, "HEATON" incuse/Value, date within wreath.
